Supervisor Keding	Yes	Councilman Cartechine	Yes
Councilwoman Martin	Yes	Councilwoman Selby	Yes

four (4) Yes Carried

Reports and Presentations:

Highway Superintendent Telaak reported on the following:

Brush pick-up is still going on. This year there has been a tremendous amount of brush out. Over my 19 years this is in the top 3 as far as the amounts of brush put out. Largely due to all the snowstorms early in the year, then the windstorms and ice storms. A lot of dead ash trees that people are cleaning out of their woods. Brush pickup is for tree trimming and cleaning up your yard. It's not for people cleaning out their woods, dead wood is very nasty to chip, very dusty and dirty. The piles are huge, the guys have been doing a great job. We have a lot of wood chips. We're behind finishing up our shoulder work and ditch cleaning. We have streets to sweep, ditches to clean, pipe to put in. We need to finish up the wood chipping by the end of this week or next week. On May 1st, brush pickup will start again. Over the past few weeks, I had the time for a few guys to do some work for the Softball League. One of the ball diamonds right behind the Town Hall, the grass was dug out and put in red clay for the diamond. We got two loads of red clay for the diamond, Softball paid for all the clay. They are very happy with the way the ball diamond turned out.

Councilwoman Selby reported on the following:

Thanked Dr. Mitch Tucker for his work in the CAC, it's greatly appreciated, thank you for stepping up and asking for reappointment. Thanked Councilman Mike and Highway Superintendent for working together and coming to an agreement to accommodate the Conor Long Foundation. There is a little extra work there for everybody, but I'm very happy to see that's there been good being done in the community and everyone is working together.

Councilman Cartechine reported on the following:

Thanked the First Responders for coming out to the meeting tonight. I know that you all donate time to the service of the Town. We've got a lot of work to do with that LOSAP Program. We will find an equitable solution to get through it together. I look forward to working with you. Congratulated Dr. Mitch Tucker on his reappointment. He does a great job with CAC with a lot of passion. It is great to see a lot of positive things. Thanked Bob Telaak, we got together this morning and had breakfast. We talked about Town issues. We also took a ride through Town. With Bob's suggestion and direction, we have a workable plan for working with the Conor J. Long Foundation. I did send an email to the principals of that Foundation today and I'd like to arrange for a meeting so that we can plan and have that as part of our budgeting process, so that it runs as efficiently as possible. I learned that the reason brush pickup is scheduled for April 1st and May 1st, there is a lull in the schedule before Town roadwork is to be done. We took an extensive drive around

Town and there's no question that people are taking advantage of the brush pickup. Some of the piles we looked at were looking like a commercial job that took the trees out to the road and that is a tremendous burden to place on the Highway Department. I'd like to ask everyone to be respectful about what they put out. Please extend my appreciation to the men for the work that they are doing. The primary function of the Highway Department is road maintenance and snow removal.

Councilwoman Martin reported on the following:

Thank you, Dr. Mitch Tucker, for asking for reappointment and all your hard work, it's really appreciated. There is a Conservation Advisory Council meeting tomorrow night in the Planning Room at 7:00 pm if anyone is interested in attending. Please come and see what we are all about, we are always looking for volunteers. Fishing Derby on May 13th, I'll have more information as the date gets closer. I have heard that the Maplewood Cemetery Board is looking for people to join and help. They need a secretary and a treasurer. I will be attending the meeting on Saturday May 6th at 10:00 am at the North Boston Fire Hall to see what the Cemetery Board might need to help them. If anybody is interested, you're welcome to attend that meeting as well.

Town Clerk Quinlan reported on the following:

Town Clerk's report for March 2023 has been submitted to Supervisor Keding. This community never disappoints, the Connectlife blood drive from April 4th, 22 units collected, helped save the lives of 66 local patients. Next Blood drive is May 2nd, donors will receive a pair of Bison home game tickets. The Town Clerk's office is a licensed issuing agent for DEC fishing licenses, \$25 for a yearly license for age 16 and above. Town Clerk's office issues licenses for dogs in the Town of Boston, proof of rabies vaccination, certificate of spay or neuter, yearly license is \$8.00 for spay or neuter, \$16 for unspay or unneuter. Karl Simmeth, lifelong resident of Boston has a wonderful display of Hess trucks and machinery in the display case. The display case is available for anyone that would like to display something that would be appropriate for all Town residents to enjoy. Contact my office if interested.

Supervisor Keding reported on the following:

State of the County address which was on April 13th. The biggest thing that really would affect the Town of Boston, in some capacity down the road, there is a lot of gray area on this, details have not been officially ironed out or released from the County. The Emergency Management Services that would be provided across Erie County. It is not a replacement, so if there are any rumors, this is not something Erie County is looking to come in and take over the Boston Emergency Squad. This is a back-up, in addition too. There will be more details from the County. I have spoken with Greg Gill

directly, quite extensively, on this matter. He will be working with some outreach to the Boston Emergency Squad and other agencies across Erie County as they get this program underway. This is something that has to be approved by the Erie County Legislature. So as information is received, I will report back on that. The Comprehensive Plan, has had a couple of meetings. We are looking for Boston residents at this time 18 and older to be part of the initial committee. We're looking to have that core group and then we'll have other subset groups as we go through the Comprehensive Plan update. By the end of this week, it is my goal to have information out on the Town's website. Water Phase One, the last report I received from CPL Engineering is that we're waiting on Erie County Department of Health. There are a couple of matters that they had some questions that went back. And unfortunately, all the money that is out there with Federal stimulus funds, there's a back log and it's the nature of the beast right now in the construction industry. Once we clear the hurdle of Erie County Department of Health, the Town Board will have the information to submit and go out to bid and start getting bids based off the scope of the project for Water Phase One. With all those details we'll have a price tag associated with that initiative. Keep our Highway crew safe and be respectful of our Town employees that are working for us, cut brush in 4 foot lengths and place cut ends towards the curb, visit Town website for the information that was provided by the Highway Superintendent. Thanked Mitch Tucker for doing all his great work for the Conservation Advisory Council. Congratulations, I appreciate that you are staying on board. You have done a lot of great work. Waste Management At Your Door Special Collection; if you are cleaning out and want to get rid old TV's, computers, cell phones, any electronic waste, or household hazardous waste, call in to WM 800 number or through the Town website, click on the solid waste link, schedule date and time. Clearly label items, will be collected and safely disposed.

A motion was made by Supervisor Keding and was seconded by Councilwoman Martin to adjourn the meeting at 8:15 p.m.

AUDITED & APPROVED BY TOWN BOARD, RECORDED BY TOWN CLERK _____ DATE _____

Climate Change Vulnerability Study and Resilience Plan

Working Group Meeting 2

April 17th 2023

Welcome & Introductions

Project Update

Climate Data & Asset Exposure Analysis

Sensitivity, Consequence & Potential Impact

Priority Vulnerabilities

Discussion

Next Steps

Welcome & Introductions

- Please use the ***raise hand function*** at any point during the presentation to ask a question or add it to the chat.
- The meeting will be recorded
- The presentation was provided to everyone in advance of today's working group session.
- If you have technical difficulties or need assistance with the Microsoft Teams please message jeffrey.meek@icf.com

Example of Toolbar

Team

- **Project Lead:** Dave Bradt, Senior Director – Strategic Planning
- **Technical Lead:** Ed Roedel, Principal Engineer – Strategic Planning
- **Stakeholder Engagement:** Dave Gridley, Director – Government & Community Relations
- **Regulatory Lead:** Lori Cole, Manager – Regulatory & Tariffs
- **Study Support:** ICF Consulting
 - Judsen Bruzgul – Project Lead
 - Dan Bishop, PhD – Climate Scientist
 - Jeffrey Meek – Stakeholder Lead

Welcome & Introductions

Project Update

Climate Data & Asset Exposure Analysis

Sensitivity, Consequence & Potential Impact

Priority Vulnerabilities

Discussion

Next Steps

Overview of PSC Order

- March 2022, PSC law became effective (Case 22-E-0222) to NY electric utilities
- Conduct a **Climate Change Vulnerability Study (Study)** and develop a **Climate Change Resilience Plan (Plan)**
- The Study must include an evaluation of the electric grid's vulnerability to climate-driven risks
- The Plan must address the findings of the Study for the next ten- and twenty-year periods
- Engage and collaborate with stakeholders
- The Study and Plan must be filed in the fall of 2023, with updates at least every five years

Reminder: Working Group Overview

- Provide a platform for open and constructive discussion of key issues affecting NYSEG and RG&E's climate resilience planning
 - Gather input and insights from external stakeholders and subject matter experts on strengths and gaps
 - Learn about parallel efforts and connection points
- This is the second Working Group meeting, with the third meeting to be scheduled in early fall of 2023

Reminder: Efforts to Date

WG Session 1:

- Project Background (PSC Order, WG goals)
- Climate science summary & sample asset exposure findings
- Process for determining physical impacts of climate change on infrastructure
- Next steps

Reminder: Efforts to Date

WG Session 1:

- Project Background (PSC Order, WG goals)
- Climate science summary & sample asset exposure findings
- Process for determining physical impacts of climate change on infrastructure
- Next steps

What was helpful to you in the first session?

Today's Focus

- Update on the study progress since the last WG meeting
- Provide information on the climate science, assets, and exposure for the Climate Change Vulnerability Study and Resilience Plan
- Review study process for determining **sensitivity, consequence, and potential impact** of climate change on electric utility infrastructure
- Summarize the priority vulnerability findings and how they will drive the focus of the Resilience Plan
- Discuss study details and process, and share next steps

Reminder: Adaptation

Actions to increase resilience to climate change (e.g., hardening, undergrounding, new storm barriers, changes to design standards, etc.)

Welcome & Introductions

Project Update

Climate Data & Asset Exposure Analysis

Sensitivity, Consequence & Potential Impact

Priority Vulnerabilities

Discussion

Next Steps

Today's focus

Project Process Diagram

(Vulnerability Assessment → Resilience Plan)

Process Diagram: Vulnerability Assessment Overview

Potential impact scores are assessed alongside **exposure** (climate data for AVANGRID service territory) to identify **vulnerabilities**.

Overview of Preliminary Exposure Findings

High-Level

- Climate change will lead a warmer and wetter future
- Extreme events are expected to occur more frequently and of a greater intensity, but determining quantifiable changes to justify projects is difficult/uncertain

Specific

- By 2050, more than half of NYSEG and 100% of RG&E facilities are projected to go from 0 to more than 2 days per year with average temperatures over 86°F [**Affects transformers and ratings**]
- By 2050, 100% of NYSEG and RG&E facilities are projected to see 1-in-10-year temperatures ranging from 100°F to 105°F compared to just 22% currently [**Affects most temperature sensitive equipment; 104°F max**]
- By 2050, NYSEG and RG&E territories are projected to see increases of 9%-12% in the maximum 5-day precipitation event. [**Not expected to be limiting**]
- Average wind speeds are not expected to increase significantly. Windspeeds of ~70+ mph have already been measured across the territories
- There are already significant numbers of assets in flood zones for present-day 100- and 500-year events; by 2050, 100- and 500-year flood events are projected to cause deeper and more extensive flooding

Climate Pathways

- **Climate change projections:** a range of possible outcomes in terms of future temperatures, rainfall, or sea level rise
- **Vulnerability assessment scenarios:** a subset of climate projections that consider potential climate futures to characterize future climate risks
- Each scenario consists of:
 1. Shared Socioeconomic Pathway (SSP)
 2. Representative Concentration Pathway (RCP)
 - **SSP2-RCP4.5:** trends do not shift from historical patterns
 - **SSP5-RCP8.5:** rapidly growing global economy heavily dependent on fossil fuels
 3. Percentile from the range of model outcomes for a given emissions trajectory (e.g., 25th, 50th, 90th percentiles)
- We used three pathways representing the plausible lower and upper bounds of climate model projections:
 - SSP2-4.5 50th percentile as lower bound
 - **SSP5-8.5 50th percentile as high bound** ← **NYSEG/RG&E's Selected Planning Level**
 - SSP5-8.5 90th percentile as a high-end “stress test”

Exposure Methods

- **Exposure:** degree to which assets could face climate hazards, based on their physical locations and projected hazards
- **Climate data** is from Columbia weather stations
- **Nearest neighbor approach** created polygons for each weather station in the NYSERDA climate region
- **Assets were assigned climate data** of the polygon they're located in

NYSERDA Climate Regions and Weather Stations

Polygons created using nearest neighbor approach

Changes in this region expected to be significant

Quantifiable Climate Variables Assessed

Annual Average Maximum Temperature	1-in-10-year Maximum Temperature
Days Per Year with Daily Avg. Temperatures > 86°F (30°C)	Days Per Year with Max. Temperatures > 95°F (35°C)
Days Per Year with Average Max. Temperatures > 104°F (40°C)	Avg. Annual Max. 5-day Precipitation
Highest Daily Peak Wind Gusts	First Street Flooding Data (100-year / 500-year)

Exposure: Temperature Findings

Key Takeaway:

All assets are projected to see more frequent days with average temperatures $>86^{\circ}\text{F}$

- Historically, assets have seen < 2 days each year with average temperatures above 86°F
- Increases projected to be highest in the southeastern region, at assets near the Mohonk and Dobbs Ferry weather stations
- Assets near the Rochester, Oswego, Buffalo, and Fredonia weather stations are also projected to see higher increases, relative to the rest of the service area, under both future scenarios

Substations

NYSEG Divisions
RGE Divisions

Days each year with average temperatures over 86°F (30°C)

- | | |
|-------|---------------|
| 0 - 2 | 8 - 10 |
| 2 - 4 | 10 - 15 |
| 4 - 6 | > 15 (max 23) |
| 6 - 8 | |

Exposure: Temperature Findings

Key Takeaway:

Assets across the service area are projected to experience higher extreme temperatures in coming decades

- Historically, RG&E and NYSEG assets have experienced 1-in-10-year temperatures ranging from 94 - 100°F
- Assets closest to the **Elmira, Dobbs Ferry, and Mohonk** weather stations are projected to experience the greatest increases in extreme temperatures
 - SSP2-4.5 50th percentile projections: 103-107°F, at these stations in 2050
 - SSP5-8.5 90th percentile projections: 108-112°F, at these stations in 2050

NYSEG Divisions
RG&E Divisions

Exposure: Precipitation Findings

Key Takeaway:

Maximum 5-day precipitation totals are projected to increase across the service area

- Historically, assets around the **Mohonk, Dobbs Ferry, and Saratoga** weather stations have experienced the most precipitation falling during the maximum 5-day event
- Highest totals are projected to continue to occur at these **Mohonk, Dobbs Ferry, and Saratoga** weather stations

Average amount of precipitation

Change in average amount of precipitation

Exposure: Flooding Findings

Key Takeaways

There are already significant numbers of assets in flood inundation zones for present-day 100- and 500-year events; by 2050, 100- and 500-year flood events are projected to cause deeper and more extensive flooding.

Flooding was evaluated on an asset-by-asset basis, instead of a regional basis

- Currently, approximately **16%** of substations are inundated by at least ~0.5 in. of water under the 100-year storm, and **22%** are inundated under the 500-year storm
- By 2050, on average, substations are projected to see a **~2.5 in.** increase in flood depth under the 100-year storm scenario, and an **~3 in.** increase under the 500-year storm scenario

Example asset & flood data (Dannemora Distribution Station)

Exposure: Wind Findings

Quantifying the effect of climate change potential for high-winds that are the result of unique weather events is difficult to do with a high degree of confidence. Our analysis relies on:

Extreme Wind Analysis

Quantifiable

(Quantitatively Modeled Simulations)

- Average near-surface wind-speeds
- Reproduction of events experienced at regional airports via “gust-factor”
- Utilizes 16 Global Climate Models as part of NASA simulation efforts
- Does not include most extreme windspeeds, e.g., tropical cyclones

Limited “prediction” capability of maximum possible future wind-speeds

Qualified

(High Uncertainty/Dynamic Events)

- Tropical/Extra-Tropical Cyclone
 - Intensity
 - Trajectory/Path
 - Frequency
- Uses literature review of studies specific to the analyzed phenomenon

Limited to analysis from literature; cannot determine specific probabilities of storm occurrence/intensity; hard to ask “what-if” questions quantitatively

Exposure: Wind Findings

Key Takeaways:

Wind projections do not indicate large increases in average wind gust speeds in future decades; however, high impact, low likelihood storm events *are* projected to intensify, which may drive higher extreme wind speeds

- Wind gust speeds in 2050 are projected to be between **3% lower and 1% higher than historical speeds**
- Wind gusts are highest at assets around Syracuse and Albany and lowest in Plattsburgh
- Even so, future tropical/extra tropical cyclone events and other low likelihood events are projected to intensify in the future; these high intensity low likelihood events may drive higher extreme wind speeds

High Impact Low Likelihood (HILL) Extreme Event Scenarios

- Opportunity to explore “stress test” extreme weather and climate events—including *consecutive or compounding events*—that are not well resolved by standard downscaled climate models but drive potentially outsized impacts.
- Unlocks an expanded set and potential “worst-case” vulnerabilities to consider in the Vulnerability Assessment, including impacts to the system that may already be operating in a degraded state and complex restoration scenarios.
- NYSEG & RG&E are evaluating:
 1. Hurricane with tropical storm force winds and inland flooding
 2. Ice storm followed by cold snap

Project Update

Climate Data & Asset Exposure Analysis

Sensitivity, Consequence & Potential Impact

Priority Vulnerabilities

Discussion

Next Steps

Sensitivity: Methods

***Sensitivity:** the degree to which assets could be negatively affected by exposure to a climate hazard*

Each asset in scope was given a sensitivity rating for each hazard, from 0 (None) to 3 (high)

These ratings were determined using ICF in-house expertise in consultation with Avangrid Project Leads

Sensitivity	
None	Not sensitive to this hazard
Low	Asset, operation, or system faces minimal potential adverse impact from this hazard.
Moderate	- Asset, operation, or system may be adversely affected by this hazard. - Impacts are medium by one or more factors: - Impacts are only likely at a very high threshold of exposure (i.e., very high temperature, or water level. - Impacts are more likely to be chronic/controlled than sudden/acute (i.e., accelerated degradation rather than catastrophic failure).
High	- Asset, operation, or system may be subject to increased risk of major and/or sudden failure in the event of hazard exposure. - Asset has limited existing tolerance for exposure to this hazard (i.e., substation without existing flood protection; non-submersible padmount transformer

Example

High Temperature				
Transmission	Sensitivity	x	Consequence	= Potential Impact
Line structures (poles/towers)		x		
Conductors (Overhead)		x		
Conductors (Underground)		x		
Open-air current carrying components		x		

N/A	Low	Medium	High
-----	-----	--------	------

X

Potential impact scores are assessed alongside **exposure** (climate data for AVANGRID service territory) to identify **priority vulnerabilities**.

These priority vulnerabilities serve as a starting point to identify and prioritize adaptation investments that will be further explored in the resilience plan.

Sensitivity: Findings

None

Low

Medium

High

Transmission	Temperature	Wind	Inland & Riverine Flooding	Precipitation	Wind + Ice
Line structures (poles/towers)					
Conductors (Overhead)					
Conductors (Underground)					
Open-air current carrying components (i.e., switches, jumpers...)					

Distribution	Temperature	Wind	Inland & Riverine Flooding	Precipitation	Wind + Ice
Structures (overhead) [includes poles]					
Conductors (underground)					
Conductors (overhead)					
Transformers (overhead)					
Transformers (pad mount)					
Regulators (pole mount)					
Capacitors (pole mount)					
Open-air current carrying components (i.e., switches, jumpers...)					
Surge Arresters					

Substations	Temperature	Wind	Inland & Riverine Flooding	Precipitation	Wind + Ice
Substation transformers					
Substation regulators					
Circuit breakers (open air)					
Protection and control devices					
Instrument Transformers (CT's and PT's)					
Control room/ Control house					
Substation Reactor					
Support Structures					

Sensitivity is the degree to which assets could be negatively affected by climate hazard exposures.

Consequence: Findings

None	Low	Medium	High
------	-----	--------	------

Transmission	Consequences
Line structures (poles/towers)	High
Conductors (Overhead)	Medium
Conductors (Underground)	High
Open-air current carrying components (i.e., switches, jumpers...)	Medium

Distribution	Consequences
Structures (overhead) [includes poles]	Medium
Conductors (underground)	Medium
Conductors (overhead)	Low
Transformers (overhead)	Medium
Transformers (pad mount)	Medium
Regulators (pole mount)	Medium
Capacitors (pole mount)	Low
Open-air current carrying components (i.e., switches, jumpers...)	Low
Surge Arresters	Low

Substations	Consequences
Substation transformers	High
Substation regulators	High
Circuit breakers	High
Protection and control devices	Medium
Instrument Transformers (CT's and PT's)	Medium
Control room/ Control house	High
Substation Reactor	High
Support Structures	High

Consequence is the estimated magnitude of negative outcomes associated with impacts.

Potential Impact Ratings (sensitivity x consequence)

None	Low	Medium	High
------	-----	--------	------

Transmission	Temperature	Wind	Inland & Riverine Flooding	Precipitation	Wind + Ice
Line structures (poles/towers)					
Conductors (Overhead)					
Conductors (Underground)					
Open-air current carrying components (i.e., switches, jumpers...)					

Distribution	Temperature	Wind	Inland & Riverine Flooding	Precipitation	Wind + Ice
Structures (overhead) [includes poles]					
Conductors (underground)					
Conductors (overhead)					
Transformers (overhead)					
Transformers (pad mount)					
Regulators (pole mount)					
Capacitors (pole mount)					
Open-air current carrying components (i.e., switches, jumpers...)					
Surge Arresters					

Substations	Temperature	Wind	Inland & Riverine Flooding	Precipitation	Wind + Ice
Substation transformers					
Substation regulators					
Circuit breakers					
Protection and control devices					
Instrument Transformers (CT's and PT's)					
Control room/ Control house

Project Update

Climate Data & Asset Exposure Analysis

Sensitivity, Consequence & Potential Impact

Priority Vulnerabilities

Discussion

Next Steps

Vulnerabilities

The potential of assets, operations or customers to be affected by projected hazards, and the significance of the potential consequences.

Each asset was given a **sensitivity** rating for each hazard, from 0 (N/A) to 3 (high), and a **consequence** rating.

Sensitivity and consequence ratings were considered in tandem to generate a **potential impact** score from low (green) to high (red).

These ratings were determined through Avangrid and ICF experts' knowledge.

Potential impact scores were assessed alongside exposure data to create a list of **priority vulnerabilities**.

Preliminary Priority Vulnerabilities

Vulnerability is the potential of assets to be affected by projected hazards, and significance of potential consequences.

These asset-hazard-region combinations are **priority potential vulnerabilities** for further investigation in the resilience plan:

	Temperature	Wind	Inland & Riverine Flooding	Precipitation	Wind + Ice
Asset Families with highest impact ratings	Substations	Transmission Distribution Substations	Transmission Substations	N/A	Transmission Distribution Substations
Climate regions of highest hazard exposure	Brewster, Elmira	N/A	Floodplains span service area; evaluated on asset-by-asset basis	Brewster, Saratoga	N/A

Project Overview

Climate Change Vulnerability Study

Resilience Plan

Climate Science

Exposure

The degree to which assets, operations, or systems could face climate hazards, based on their physical locations and projected hazards.

Potential Impact

The potential for negative outcomes in the event of climate hazard exposure.

Sensitivity

The degree to which assets, operations, or systems could be affected by exposures.

Consequence

Estimated magnitude of negative outcomes associated with impacts. Incorporates criticality and adaptive capacity.

Vulnerability

The potential of assets or operations to be affected by projected hazards, and the significance of the potential consequences.

Resilience Framework

Comprehensive framework to address gradual climate change and extreme events that can guide investment planning

Next Steps

Continued Stakeholder Engagement Opportunities

- Updates will continue to be provided via periodic Project Update emails in 2023.
- Next Working Group meeting will be in early Fall of 2023 to further discuss the risk assessment and provide an update on the Resilience Plan
- Continue building towards the climate vulnerability study filing (Sept 2023) and resilience plan filing (Nov 2023)
- Parties are welcome to join the Working Group at any time

Stakeholder Engagement Timeline

LaBella answer to mortar repair for the concrete slab
honeycombing:

- A. Repairing Formed Surfaces: Surface defects include color and texture irregularities, cracks, spalls, air bubbles, honeycombs, rock pockets, fins and other projections on the surface, and stains and other discolorations that cannot be removed by cleaning.
 - 1. Immediately after form removal, cut out honeycombs, rock pockets, and voids more than 1/2 inch (13 mm) in any dimension to solid concrete.
 - a. Limit cut depth to 3/4 inch (19 mm).
 - b. Make edges of cuts perpendicular to concrete surface.
 - c. Clean, dampen with water, and brush-coat holes and voids with bonding agent.
 - d. Fill and compact with patching mortar before bonding agent has dried.
 - e. Fill form-tie voids with patching mortar or cone plugs secured in place with bonding agent.

Town of Boston - North Boston Town Park Restroom & Pavilion

BI-WEEKLY CONSTRUCTION MEETING MINUTES

Location: BOSTON TOWN HALL

Date: April 26, 2023

Time: 10:00am

ITEMS OF DISCUSSION:

1. Introductions
 - a. Chris Sicoli to email an updated schedule.
2. Project Progress
 - a. By Sicoli:
 - **Siding is installed.**
 - **Soffit / Fascia complete.**
 - **Exterior lighting and receptacles installed.**
 - **Block chase wall complete.**
 - **Ducts and vents for exhaust complete.**

Two Week Look Ahead:

 - **Power wash the block walls.**
 - **Wash the concrete.**
 - **Install precast on column bases.**
 - **Site clean up.**
 - **Top soil and hydro seed.**
 - **Water tap still to be complete. Jason Keding offered to make a phone call if needed to the ECWA.**
 - **Install interior ceilings.**
 - **Install doors.**
3. Payment Applications
 - 1) Submit Pencil Copy electronically to LaBella for Review five days prior to the last day of the month. It was discussed that the board meetings are the first and third Wednesday of the month.
4. Project Work Hours and Restrictions.
 - a. Sicoli stated that the hours of operation will be 7:00 am to 3:30 pm.
 - b. Typically - Utility Shutdowns: Coordinate with owner and notify no less than 72 hours. Sicoli does not anticipate any shutdowns.
5. Submittals/ RFI's/ Change Directive Procedures.

- a. All submittals have been reviewed by LaBella at this time.
5. Record Documents
 - a. Maintain one clean master set of drawings to be kept on site to record as-built conditions and make any and all changes to RFI's and/or Change Orders.
 - b. Make available for inspection by Code Enforcement Official, LaBella and/or County.
6. Owner Requirements
 - a. Site Use – Safety and Security
 - 1) Public Park Occupancy – keep site safe & secure.
 - b. Staging, Storage Areas and Dumpster
 - 1) Dumpster is on site.
 - c. On Site Facilities.
 - 1) Parking will be designated in specific location determine by the Town of Boston.
 - d. House Keeping Procedures.
 - 1) Contractor will be required to maintain daily clean-up.
 - 2) Daily removal of debris from the work area. Even though it is a park – please do not leave debris, **please ensure a safe work environment.**
7. Old Business
 - a. Jason Keding called Russ Stoll, we were grateful for Jason placing that call. All parties know to contact Adam Massaro (ECWA) for connection.
 - **Waiting on RPZ and hot box installation Neighbors have been texting Kathleen Kogut.**
 - **Do not forgot Sicoli stated shrubs will be planted around hot box on Parkside Neighbor's Land.**
 - b. Parking/site access: Per Sicoli the site will be fully restored prior to the project's completion. **The site is extremely torn up at this time.**
 - c. **IT IS IMPORTANT TO KEEP THE SITE SAFE AND NO SAFETY HAZARDS.** The "Do Not Enter" sign will remain visible and on site until construction is completed.
 - d. Shawn Vanderdoes of the Town of Boston asked if the existing town park light poles will be reconnected by electrical work in the new pavilion, we were assured by Sicoli this would happen. **Status: Not reconnected yet.**
 - e. Tom Murphy, Code Enforcement for the Town of Boston submitted photos of the concrete slab at our project, showing the water bottle in concern. Contractor is handling removing water bottle and parging concrete. **Sicoli to repair concrete, remove water bottle and take photos of the items in question as they are resolved. Tom Tomaino stated that when they are grading the site at the end of the project, they expect to resolve the concrete issues and to provide photos of the completed resolution. Status: still to be completed.**

- f. Tom Murphy, Code Enforcement for the Town of Boston to inspect framing when complete. **Tom Murphy is to review the framing when complete, still some framing work to complete before he can inspect it.**
 - g. Electrical inspection to be conducted by a 3rd party testing agency. **Status: the 3rd party rough in has been completed.**
 - h. Shawn Vanderdoes of the Town of Boston, requested that the rebar be removed from the lawn areas, as his mowing team would like to be assured during their moving efforts that the area is clear. **Completed.**
 - i. K.Kogut to check on the mortar repair solution for the concrete slab honey combing situation. **Gave recommendation to contractor today.**
 - j. Block to be replace that was full of mortar in the conduit. All set.
 - k. Possible punchlist date of May 18th at 10 am.
9. New Business
- a. Structural gusset plate situation. LaBella's structural engineer reported that he was waiting to hear back from Sicoli to try to work out a better solution. K. Kogut called T. Tomaino – engineer and Sicoli to discuss.
10. Construction Meeting - Bi-Weekly Construction Meetings to continue until construction is complete. **Next Meeting: Wednesday, May 10, 2023 at 10:00 am, Kathleen Kogut to conduct field visit prior to meeting.**

The above is my summation of our meeting. If you have any additions and/or corrections, please contact Kathleen Kogut at LaBella (716) 710-3041, for incorporation into these minutes. After 10 days these minutes will become part of the project documents.

Sincerely,

LABELLA ASSOCIATES, D.P.C.

Kathleen Kogut, LaBella Project Manager/Project Architect

Appendix E – General Recordkeeping Requirements for Tax Collecting Officers

In order to accomplish their responsibilities and properly account for tax collections, collectors and receivers of taxes and assessments should, and in some cases must, comply with the following:

1. Maintain tax warrants, tax rolls, tax bills (statement of taxes due), and other documents relating to tax accounts.
2. Maintain a cashbook, which chronologically identifies all receipts and disbursements.
3. Maintain official bank accounts in designated depositories.
4. Issue acceptable receipt forms to acknowledge all moneys collected (tax bill and tax receipts are generally one document).
5. Deposit all moneys received in a timely manner.
For Towns Only: Deposit to the appropriate bank account(s) within 24 hours of collection.
6. Make all disbursements by check except for authorized petty cash payments.
7. **For Towns Only:** Generally, remit tax collections to the supervisor at least once a week until payment in full of all moneys payable to him/her pursuant to the warrant have been made.
8. **For Towns Only:** After payment to the supervisor in full of all moneys payable to him/her pursuant to the warrant, remit additional tax collections, if any, to the county treasurer by the 15th day of the month following collection.
9. Prepare a list of unpaid taxes at expiration of the warrant, and complete settlement with the county treasurer, if applicable.

(See, generally, Town Law Section 35, pertaining to the powers and duties of collectors, and Town Law Section 37, pertaining to the powers and duties of receivers of taxes and assessments.)

An Important Initial Step in the Audit Process for Tax Collectors and Receivers

Following the tax collection period, the tax collector or receiver is required to account for or settle up real property taxes that the collector or receiver was responsible for collecting. The accounting is made to the county treasurer, and is considered an important and integral part of any audit and/or oversight process.

Before the town board audits the records of the tax collector or receiver, a copy of the settlement sheet should be obtained and reviewed. If necessary, inquiry should be made with the county treasurer to find out if there were any known problems or concerns with the collector's or receiver's records or accounting at the time of settlement.

Note: An audit of the tax collector or receiver could be done any time after settlement with the county treasurer. Once the collector or receiver has settled with the county, there should be no further activity and the bank account balance should be zero (unless the bank, at the time of opening the account, required a minimum amount to be held in the account).

Appendix E – General Recordkeeping Requirements for Tax Collecting Officers continued

Checklist for Review of Tax Collecting Officer's Records

<u>Settlement</u>	<u>YES</u>	<u>NO</u>
Is a copy of the collector's or receiver's settlement sheet available?	☒	☐
Have all settlement issues/concerns been adequately resolved?	☒	☐

<u>Bank Accounts</u>	<u>YES</u>	<u>NO</u>
Is the bank account reconciled after bank statements are received?	☒	☐
<i>Last Bank Reconciliation for Each Bank Account:</i> <i>Date Performed</i> <u>1/3/2023</u> <i>Month Ending</i> <u>December 2022</u>		
Note: Tax collector's bank account balance should be \$0.00 at the <u>beginning</u> of the <u>collection</u> period		

<u>Cash Receipts</u>	<u>YES</u>	<u>NO</u>
Is the cash receipts journal maintained in a manner sufficient to identify the date received, payer, tax account number, tax amount, interest amount and other appropriate information?	☒	☐
Are deposits identified?	☒	☐
Are duplicate deposit slips kept?	☒	☐
Do deposit amounts agree with cash receipt amounts?	☒	☐
Are bank deposits timely or (for towns) within 24 hours of collection?	☒	☐

<u>Cash Disbursements</u>	<u>YES</u>	<u>NO</u>
Are pre-numbered checks used for all disbursements other than petty cash?	☒	☐
Are all checks signed by the tax collector or receiver?	☒	☐
Are canceled checks or check images returned with bank statements and maintained on file?	☒	☐

<u>Deposit Protection</u>	<u>YES</u>	<u>NO</u>
Has the bank pledged adequate, eligible securities to protect tax collector deposits that exceed FDIC insurance protection, when applicable?	☒	☐

Appendix E – General Recordkeeping Requirements for Tax Collecting Officers continued

<u>Financial Reporting</u>	<u>YES</u>	<u>NO</u>
Are payments made at least weekly to the supervisor?		☐
Are receipt forms issued by the supervisor to acknowledge collection?		☐
Are payments made timely to the county treasurer?		☐

<u>Accountability</u>	<u>YES</u>	<u>NO</u>
Are penalties assessed/collected on late payments?		☐
Is the total amount of penalties collected on overdue real property taxes comparable with that collected in previous year(s)? Do the amounts look reasonable?		☐
Is the tax collector or receiver treating his/her own tax bills properly, e.g., penalties, if required?		☐
Are interest earnings remitted to the supervisor and/or the county as appropriate? (Check county resolution for guidance.)		☐
Are there significant safeguards for the protection of assets and cash, such as a safe or locked file cabinet, offices with locks on the door, regular deposits of cash, etc.?		☐

Comments and Conclusions

Drescher & Malecki LLP has performed the checklist for review of the Town of Boston Tax Collecting Department on behalf of the Town Board for year ended December 31, 2022. DM/4/3/2023

Appendix D – General Recordkeeping Requirements for Town Clerks

Adequate accounting records and effective procedures should be in place to account for and report town clerk financial activities properly. Some basic and essential recordkeeping and reporting procedures include the following:

1. Maintain a cashbook, which chronologically identifies all receipts and disbursements.
2. Make all disbursements by check, except as otherwise authorized by law, such as authorized petty cash disbursements.
3. Maintain official bank accounts in designated depositories.
4. Deposit all moneys received to official bank account no later than the third business day after \$250 has been collected (Town Law Section 30 [1-a]).
5. Perform a monthly reconciliation of cash with amount in the bank and related liabilities.
6. Prepare monthly reports and remit collections to the supervisor and agencies on a timely basis:
 - To the Town Supervisor – for fees and other moneys collected belonging to the town no later than the fifteenth day of each month following receipt (Town Law Section 27[1]).
 - To the New York State Department of Health – for marriage license fees on or before the fifteenth day of each month (Domestic Relations Law Section 15[3]).
 - To the New York State Department of Agriculture and Markets – Dog Licensing Unit and County Treasurer – for dog license fees on or before the fifth day of each month (Agriculture and Markets Law Section 111[1]).
 - To the New York State Department of Environmental Conservation (DEC) – for conservation (hunting/fishing) license fees as applicable via the DEC's automated system (Environmental Conservation Law Section 11-0713; 6 NYCRR Section 177.4).

The town clerk of certain towns may also serve as the tax-collecting officer (see Town Law Section 36). As collecting officer, the town clerk generally would be responsible for collecting both town real property taxes and county real property taxes that are levied within the town. A portion of the taxes collected (the amount levied by the town) is remitted to the town supervisor, and any residual amount is paid to the county treasurer (see Town Law Section 35). Because of some unique or additional legal requirements pertaining to tax collecting officers, a separate audit checklist has been developed for this portion of the clerk's functions.

Appendix D – General Recordkeeping Requirements for Town Clerks continued

Checklist for Review of Town Clerk's Records

<u>Cash Receipts</u>	<u>YES</u>	<u>NO</u>
Is the cash receipts journal up-to-date?	☒	☐
Is the cash receipts journal maintained in a manner that identifies the date received, payer, purpose, and the amount either individually or totals referenced to subsidiary receipt records (e.g., water rents receipts register)?	☒	☐
Are un-deposited cash receipts safeguarded?	☒	☐
Are duplicate deposit slips kept?	☒	☐
Do deposit amounts agree with cash receipt amounts?	☒	☐
Are deposits made timely (no later than the third business day after \$250 has been collected) and recorded up-to-date? <i>Last Recorded Deposit: Date _____ Amount _____</i>	☒	☐
Is the cash receipts journal totaled and summarized monthly?	☒	☐

<u>Cash Disbursements</u>	<u>YES</u>	<u>NO</u>
Is the cash disbursements journal up-to-date?	☒	☐
Is the cash disbursements journal maintained in a manner to identify amounts disbursed either individually or totals referenced to abstracts or payrolls?	☒	☐
Are pre-numbered checks used for all disbursements made by check?	☒	☐
Are all checks signed by the town clerk?	☒	☐
Are canceled checks or check images returned with bank statements and maintained on file?	☒	☐
Are all unused checks properly controlled (blank check stock)?	☒	☐
Are checks recorded up-to-date? <i>Last Recorded Check: # _____ Date _____ Amount _____</i>	☒	☐

Appendix D – General Recordkeeping Requirements for Town Clerks continued

<u>Cash Reconciliations</u>	<u>YES</u>	<u>NO</u>																								
Are bank accounts reconciled? By Whom? _____ How Often? _____ Who Reviews/Verifies Them? _____		☐																								
Is the bank reconciliation performed timely after the bank statement is received?		☐

Receivables <i>(if applicable, such as water rents)</i>	YES	NO	
Are receivable control accounts maintained?	☐	☐	N/A
Is there indication that the receivable control accounts are reconciled to the detail subsidiary records?	☐	☐	N/A

Comments and Conclusions

Erie County Southtowns Planning and Development Group Meeting

April 24, 2023

Presentation by:

- Mark Lowery, Assistant Director, Office of Climate Change, NYS Department of Environmental Conservation
- Jessica Waldorf, Chief of Staff & Director of Policy Administration, NYS Department of Public Service

**Climate Action
Council**

1

Overview

Climate Leadership and Community Protection Act (CLCPA) – Overview

Carbon neutral economy, mandating at least an 85% reduction in emissions below 1990 levels by 2050

40% reduction in emissions by 2030

100% zero-emissions electricity by 2040

70% renewable electricity by 2030

9,000 MW of offshore wind by 2035

6,000 MW of distributed solar by 2025

3,000 MW of energy storage by 2030

185 TBtu on-site energy savings by 2025

Commitments to climate justice and just transition

[Climate.ny.gov](https://climate.ny.gov)

GHG Emissions Reduction Requirements

Current Estimated GHG Emissions by Sector

New York State GHG Emissions (MMtCO₂e)

Development of the Scoping Plan

The Climate Act required issuance of a Scoping Plan by the end of 2022 to meet statutory emission limits

- > The Scoping Plan is the result of three years of diligent and inclusive work and builds upon recommendations from seven sector-specific Advisory Panels, the Just Transition Working Group, and the Climate Justice Working Group
- > Informed by a six-month public comment period on the Draft Scoping Plan, including 11 public hearings across the State and more than 35,000 written comments
- > Prioritizes climate justice, job creation, cost reductions, public health benefits, and minimizing emission leakage
- > Undertakes comprehensive cost-benefit analysis to show impact of interaction of strategies across sectors
- > Provides recommendations for both sector-specific and cross-sector actions to achieve the Climate Act's goals and requirements

5

Key Findings from Integration Analysis

- > **Achieving deep decarbonization is feasible by 2050:** Achieving the GHG emission limits requires action in all sectors, especially considering the Climate Act's GHG emissions accounting. Every sector will see significant transformation over the next decade and beyond, which will require critical investments in New York's economy.
- > **Energy efficiency and end-use electrification are essential parts of any pathway that achieves New York State emission limits:** Approximately one to two million efficient homes must be electrified with heat pumps by 2030. Approximately three million zero-emission vehicles (predominantly battery electric) will be needed by 2030.
- > **The cost of inaction exceeds the cost of action by more than \$115 billion:** Achieving Climate Act GHG emission limits will require significant investment accompanied by even greater benefits. The GHG emission reduction strategies result in improvements in air quality, increased active transportation, and energy efficiency interventions in low- and moderate-income (LMI) homes, which generate health benefits. Reducing GHG emissions also avoids the economic impacts of societal damages caused by climate change.
- > **Create hundreds of thousands of jobs:** In addition to health and avoided economic damage benefits, new jobs driven by Climate Act investments are estimated to outnumber potential displaced jobs by a ratio of ten-to-one in 2030, with as many as 211,000 jobs expected to be created in growing sub-sectors by 2030 and 318,000 by 2040.
- > **Net direct costs are small relative to the size of New York's economy:** Net direct costs are estimated to be up to 0.6% of New York State's economy in 2030 and 1.3% in 2050. The passage of the federal Inflation Reduction Act is a major policy development that will likely reduce the costs of decarbonization economywide.

6

Climate Justice in the Scoping Plan

The Climate Act requires that at least 35% with a goal of 40% of the benefits of New York's spending on clean energy are directed to Disadvantaged Communities

- > Disadvantaged Communities are areas burdened by cumulative environmental pollution and other hazards that can lead to negative public health effects and areas vulnerable to the impacts of climate change.
- > The Climate Justice Working Group has adopted criteria for identifying disadvantaged communities using 45 indicators of environmental exposures, burdens, climate change risks, and sociodemographic factors such as age, race, and income.
- > Disadvantaged communities were identified based on geographic, public health, environmental hazard, and socioeconomic criteria. The Disadvantaged Communities criteria will be used for four statutory purposes:
 - > Co-pollutant reductions;
 - > Greenhouse gas emissions reductions;
 - > Regulatory impact statements; and
 - > Allocation of clean energy and energy efficiency investments

Just Transition in the Scoping Plan

A fundamental objective of New York's climate agenda is to ensure new economic development opportunities across the state and a just and equitable transition for New York's existing and emerging workforce

- > The implementation of the Climate Act will result in the addition of 200,000 new jobs by 2030, and tens of thousands more jobs created through 2050. New York also stands to see ten jobs added in growing clean energy sectors for every job potentially lost in displaced subsectors.
- > At the heart of this transformational movement will be union labor. The jobs being created are good paying and family-sustaining. We recognize our partners in labor are the backbone to the state's thriving clean energy economy.
- > New York will undertake a comprehensive strategy to ensure that its clean energy transition is a just transition
 - > Provide direct displaced worker support
 - > Ensure application of labor standards
 - > Target financial support for businesses
 - > Create new and comprehensive training curricula and programs
 - > Expand comprehensive career pathway programs
 - > Leverage community engagement, stakeholder input, and market assessments
 - > Create a new Office of Just Transition to centralize and direct state planning for a smooth, equitable transition for workers

Sector and Cross-Sector Strategies

The Scoping Plan includes strategies for all sectors of the economy

- > Sector Strategies
 - > Transportation
 - > Buildings
 - > Electricity
 - > Industry
 - > Agriculture & Forestry
 - > Waste
- > Cross-Sector Strategies
 - > Economywide Strategies
 - > Gas System Transition
 - > Land Use
 - > Local Government
 - > Adaptation & Resilience

Local Government

Municipalities and other local government entities have an important role to play in meeting the Climate Act's requirements and goals. These entities are well positioned to have a far-reaching impact on community action because of their authority to enact codes and regulate land use and their leadership at the local level.

State programs that partner with communities and local governments are already contributing to the move toward a more energy-efficient future. This Scoping Plan recommends strategies to build on this momentum and respond to input provided by local leaders.

- > Establish Statewide Dashboard of Community GHG Emissions Inventories
- > Develop Local Energy Policies
- > Provide Clean Energy Siting Support
- > Promote Municipal Leadership to Support Clean Energy Adoption
- > Provide State Support and Local Guidance

Land Use

Whether for development, conservation, or a mix of uses, land use directly affects the State's carbon emissions, sequestration, and storage and impacts the achievement of Climate Act requirements and goals.

Deciding where to conserve land, where to develop, and how to arrange and design that development are critical first steps in addressing climate change through land use strategies. Three themes encompass the recommended strategies in the land use sector.

- Protect, Restore, and Monitor Natural and Working Lands
- Consider Forests and Farmland in Land Use Policies
- Promote Smart Growth

Transportation

- **Zero-Emission Vehicles and Equipment**
 - Provide enhanced ZEV purchase incentives
 - Invest in and remove barriers for ZEV charging and fueling infrastructure
 - Enhance ZEV awareness and reduce sales barriers
 - Require ZEV equipment use for State contractors and at targeted facilities
- **Public Transportation and Smart Growth**
 - Identify, plan, and implement service enhancements in collaboration with communities
 - Improve public transportation ease of use
 - Invest in mobility-oriented development
 - Update the Smart Growth Public Infrastructure Policy Act
 - Fund new mobility options, low-emission zones, and car-free streets
- **Market-Based Policies**
 - Enact pricing policies that influence travel choices, such as variable parking pricing, mileage-based fees
 - Enable more low-cost financing of ZEVs
 - Consider implementing a Clean Transportation Standard

Buildings

Buildings Sector: Vision for 2030 and 2050

By 2030:

- > One to two million homes and 10% to 20% of commercial space are using heat pumps for primary space heating and cooling.
- > Heat pumps become the majority of new purchases for space and water heating.
- > Hundreds of thousands of new and existing homes and commercial buildings are efficiently electrified (energy efficient + heat pumps) each year from 2030 onward.
- > Rapid market growth is projected to generate more than 100,000 new jobs in energy efficiency and clean heating and cooling.

By 2050:

- > 85% of homes and commercial building space statewide are efficiently electrified with a diverse mix of high efficiency heat pumps and thermal energy networks.
- > Zero-emission buildings will have become the most cost-effective option in a clean energy economy that supports secure jobs and demonstrates leadership in innovation.
- > New York has advanced a managed, phased, and just transition from reliance on fossil fuels in buildings to a clean energy system – in a manner that supports vibrant, healthy communities and repairs structural inequalities.

Key Approaches to Decarbonizing Buildings

Decarbonization of the buildings sector requires:

- > **Rapid and widespread energy efficiency and electrification** of space and water heating with high-efficiency heat pumps, which can be supported by the strategic utilization of alternative fuels:
 - Energy-efficient building envelopes (air sealing, insulation, windows) with good ventilation for health and comfort
 - Cold-climate air source heat pumps (ASHPs), ground source heat pumps (GSHPs), and thermal energy networks
 - Smart controls, energy storage, on-site renewables, and other features that support load flexibility and resilience
- > **Reducing embodied carbon** associated with building construction through building reuse and lower-carbon or carbon-sequestering products and materials.
- > **Low/ultra-low global warming potential (GWP) refrigerants** and alternatives to hydrofluorocarbons (HFCs).

The Scoping Plan outlines four key themes that can enable buildings sector decarbonization:

- > **Adopt Zero-Emission Codes and Standards and Require Energy Benchmarking for Buildings**
- > **Scale Up Public Financial Incentives and Expand Access to Public and Private Low-Cost Financing for Building Decarbonization**
- > **Expand New York's Commitment to Market Development, Innovation, and Leading by Example in State Projects**
- > **Transition from Hydrofluorocarbons**

15

Highlighted Buildings Recommendations

Key recommendations:

- **Adopt Advanced State Codes for New Construction:** Requiring new construction to be highly efficient and to incorporate resilience features starting in 2025, and prohibiting fossil fuel combustion equipment for space conditioning, hot water, cooking, and appliances in new construction starting in 2025 for single-family and low-rise residential buildings and in 2028 for multifamily buildings with 4+ stories and commercial buildings.
- **Adopt Standards for Zero-Emission Equipment:** Phasing out fossil-fuel replacements of residential-sized HVAC/hot water equipment starting in 2030, commercial-sized HVAC/hot water equipment in 2035, and cooking and clothes drying appliances in 2035.
- **Require Energy Benchmarking and Disclosure:** Starting with buildings larger than 10,000 sq. ft. in 2024, require reporting on building energy consumption to inform decisions on upgrades and performance standards.
- **Scale Up Public Financial Incentives for Building Decarbonization:** Scale up incentives to reduce the upfront cost and accelerate adoption, and prioritize dedicated financial support programs for LMI households, affordable and public housing, and in Disadvantaged Communities to enable these New Yorkers to make and benefit from energy upgrades that improve housing quality with careful attention to affordability.
- **Expand Access to Low-Cost Financing:** Support expansion/creation of financing products to fund building upgrades and zero-emissions equipment purchases.

16

Highlighted Buildings Recommendations

➤ Key recommendations:

- **Support Development of Thermal Energy Networks:** Work together across multiple State agencies, utilities, affected workers and unions, local governments, and private-sector partners to support clean thermal energy networks and workforce development/training.
- **Workforce and Market Development:** Expand investments in workforce development, training, and job placement to create new employment opportunities and support quality installation and construction. Scale up awareness and consumer education. Promote technology transfer and in-state manufacturing/businesses for innovative technologies and design approaches, including low-embodied carbon construction and products.
- **Transition Away from Hydrofluorocarbons (HFCs):** Support R&D, education, and training to support the use of more climate-friendly refrigerants in place of HFCs, which are a potent greenhouse gas conventionally used in refrigeration; heating, ventilation, and air-conditioning (HVAC) equipment; and certain other building products.

Electricity

Electricity Sector: Vision for 2030 and 2050

By 2030:

- > 70% of statewide electricity comes from renewable energy sources as required by the Climate Act.
- > 10,000 megawatts (MW) of distributed solar and 6,000 MW of energy storage installed.
- > Aggressive deployment of existing renewable energy technologies such as wind, solar, and storage.
- > Address barriers to construction and operation of renewable energy to accelerate the pace of development and reduce the cost of decarbonizing the electric grid.

By 2050:

- > 9,000 MW of offshore wind installed by 2035 and a zero-emission electricity system by 2040 as required by the Climate Act.
- > Annual electricity demand growth of 100% to 110% by 2050, depending on the scale and timing of electrification and whether there are other clean alternatives for the transportation and building sectors.
- > Level of electrification needed to achieve the GHG emissions reduction requirements will increase overall electric load and shift the system peak demand from summer to winter.
- > Increased load flexibility and controllability of the electric grid and new and upgraded transmission and distribution systems will be needed statewide.

19

Electricity Sector Summary

➤ **High-level outcome:** Annual electricity demand will more than double by 2050, depending on the scale and timing of electrification and whether there are other clean alternatives for the transportation and building sectors. Need to scale up clean energy resources, such as land-based wind and solar, offshore wind, hydropower, fuel cells that use renewable fuels, and energy storage.

➤ **Key recommendations:**

- **Transform Power Generation:** Aggressive deployment of clean energy resources to decrease use of fossil fuels in the electricity sector. Programs and policies that support and encourage clean resources will be continually evaluated to ensure deployment is occurring at the pace necessary to achieve the Climate Act's requirements and goals.
 - **Retirement and/or Repurposing of Fossil Fuel Fired Facilities:** PSC should evaluate options to retire and/or repurpose existing fossil fuel electric generation facilities as part of required biennial reviews of the renewable energy program.
 - **Accelerate Growth of Large-Scale Renewable Energy Generation:** Support successful programs and identify T&D needs.
 - **Facilitate Distributed Energy Resources:** Accelerate adoption of programs and technologies that increase hosting capacity such as flexible interconnection and hybrid systems.
 - **Support Clean Energy Siting and Community Acceptance:** Agrivoltaics, Clean Energy Development Mapping tool, education.
 - **Promotion of Community Choice Aggregation:** Continued support for CCA programs where communities choose 100% renewable energy supply, enabling zero-emission microgrids and district systems, and ensuring strong consumer protections.
- **Enhance the Grid:** Enhancements to improve the efficiency and delivery of electricity, facilitate the integration of renewable energy, prioritize clean resources, and ensure electric grid reliability and security.
 - **Deploy Existing Storage Technologies:** Increased funding for energy storage deployment and incorporation of energy storage into energy delivery and transmission planning.
 - **Invest in Transmission and Distribution Infrastructure Upgrades:** Expansion of transmission and distribution systems, DEC SF6 emissions regulations, increasing hosting capacity, and port infrastructure investment for offshore wind development.

20

Electricity Sector Summary

Key recommendations:

Enhance the Grid (Cont.)

- **Improving Reliability Planning and Markets:** Market improvements with the NYISO (continuous evaluation of market products, requirements and technology standards for resource participation; wholesale market eligibility participation rules; wholesale market energy price signals; etc.)
- **Advancing Demand Side Solutions:** Reducing peak demand and increasing demand response programs.
- **Invest in New Technology:** Scoping Plan analysis and current studies show that the 100x40 goal requires 15 gigawatts (GW) to 45 GW of electricity from zero-emission, dispatchable resources in 2040 to meet demand and maintain reliability, although that gap may change over time depending on forecasted demand. Addressing this gap will require identifying and developing solutions for dispatchable technologies, like storage or nuclear power, that can be called on as needed to balance supply and demand.
 - **Determine Zero-Emission Technologies:** PSC to identify, explore, evaluate, and support the development of dispatchable technologies and solutions as they emerge to support a zero-emission electricity system by 2040.
 - **Alternative Fuels:** State should prioritize zero-emission resources (such as storage, energy efficiency, and renewable energy) where feasible. Green hydrogen and RNG should be targeted to strategic uses or when needed for safety, reliability, resilience or affordability and should demonstrate air quality, health and life cycle GHG benefits including avoiding localized pollution in Disadvantaged Communities before implementation.
 - **Nuclear Generation:** State should evaluate the role of existing nuclear reactors within the 100x40 requirements as part of policy actions needed prior to the cessation of the State's Zero Emissions Credit program in 2029, and also include the time needed for potential federal and State relicensing of these facilities and the time to determine refueling options for the different reactors. In addition, the State should consider the potential contribution of advanced nuclear technologies in achieving 100% zero-emission electricity by 2040.

Economywide

Economywide Cap-and-Invest Program

- > Advance an economywide cap-and-invest program that establishes a declining cap on greenhouse gas emissions, limits potential costs to economically vulnerable New Yorkers, invests proceeds in programs that drive emission reductions in an equitable manner, and maintains the competitiveness of New York industries.
- > **In addition, at the direction of Governor Hochul, these guiding principles will be incorporated:**
 - *Affordability*: Craft a program to deliver money back to New Yorkers to ensure energy affordability
 - *Climate Leadership*: Catalyze other states to join New York, and allows linkage to other jurisdictions
 - *Creating Jobs & Preserving Competitiveness*: Protect existing jobs and support new and existing industries
 - *Investing in Disadvantaged Communities*: Ensure 35%+ of investments benefit DACs
 - *Funding a Sustainable Future*: Support ambitious clean energy investment

23

Cap-and-Invest Program: How it Works

> How does cap-and-invest work?

- Over the coming year, DEC and NYSERDA will design a program that sets an annual cap on the amount of pollution that is permitted to be emitted in New York. Every year, the pollution cap will be set lower to meet our greenhouse gas emission reduction requirements.
- Large-scale greenhouse gas emitters and distributors of heating and transportation fuels will be required to purchase allowances for the emissions associated with their activities.
- The Cap-and-Invest Program will incentivize businesses, and other entities to transition to lower-carbon alternatives. Proceeds will support:
 - the State's critical investments in climate mitigation, energy efficiency, clean transportation, and other projects
 - Climate Action Fund with funding that will be delivered back to New Yorkers annually to ensure energy affordability

COUNTY OF ERIE

MARK C. POLONCARZ

COUNTY EXECUTIVE

April 26, 2023

Dear Affirmative Action Officer:

Erie County passed a local Fair Housing Law on May 22, 2018. As the Elected Official and/or Affirmative Action Officer for your municipality, we are sending this letter to inform you of upcoming training opportunities on the new law. Details of the trainings are as follows:

Date: Tuesday, May 9th, 2023
Time: 10 a.m.
Location: Zoom Webinar

Date: Tuesday, May 23rd, 2023
Time: 10 a.m.
Location: Zoom Webinar

If you recently attended a Fair Housing training for your community, we still encourage you to attend one of these upcoming trainings to learn about the law and how it effects the community you serve. As you know, in order for **Erie County Consortium municipalities** to receive federal Community Development Block Grant (CDBG) funds from our department for eligible community projects, the Affirmative Action Officer must attend at least one fair housing training session **every three years**. The training will be held through zoom. **Please use the above links for the session you plan on attending.**

It is important that you attend one of the trainings if you are a newly appointed officer or have not attended a training in three or more years. If this applies to you but you cannot attend either training listed above, please contact me to make other arrangements. If you no longer serve as an Affirmative Action Officer, please notify me so I can update our records.

Best Regards,

--
Jean Bennett | Senior Housing Specialist

COUNTY OF ERIE
DEPARTMENT OF ENVIRONMENT AND PLANNING

DANIEL R. CASTLE, AICP
COMMISSIONER

THOMAS E. BAINES, ESQ
DEPUTY COMMISSIONER

April 20, 2023

Honorable Jason A. Keding
Supervisor Town of Boston
8500 Boston State Road
Boston, NY 14025

Dear Supervisor Keding:

This letter pertains to the 2003 Local Cooperation Agreement and 2014 Amendments to the 2003 Agreement between the Town of Boston and Erie County relative to the Erie County Community Development Block Grant Consortium.

Please be aware that, by its terms, the Agreement will be renewed for an additional three years (2024 through 2026) unless the Municipality provides a written notification to my attention indicating its desire to terminate the Agreement. Such action would remove the Municipality from Consortium membership and thus from eligibility for receiving Federal Community Development Block Grant funds under the Consortium's Entitlement Program for the 2024 through 2026 program years. The Municipality would also be unable to access funds through the federal HOME Investment Partnership Program for the same period.

It should also be noted that if your Municipality chooses to remain with the urban county, it is also a participant in the HOME Program if the urban county receives HOME funding and may only receive a formula allocation under the HOME Program as part of the urban county, although this does not preclude the urban county or a unit of government within the urban county from applying to the State for HOME funds, should it be allowed by New York State.

By remaining with the urban county, your Municipality is also a participant in the Emergency Solutions Grant (ESG) Program and may only receive a formula allocation under the ESG Program as a part of the urban county, although this does not preclude the urban county or a unit of government within the urban county from applying to the State for ESG funds, if so allowed by New York State.

The 2003 Agreement will be automatically renewed for the three-year period unless we receive a written termination notice from your Municipality by the close of business June 2, 2023. Said notice must also be sent to Ms. Elizabeth McClam, Buffalo HUD Office, 300 Pearl Street, Ste 301, Buffalo, New York 14202.

One final point, should your Municipality choose to remain within the urban county, it is ineligible to apply for grants under the HUD-Administered Small Cities or State CDBG programs while it is part of the urban county.

Should you have any questions, do not hesitate to contact Paul D'Orlando at 858-2194.

Very truly yours,

Daniel R. Castle
Commissioner

Honorable Jason Keding
Supervisor
Town of Boston
8500 Boston State Road
Boston, NY 14025

APR 14 2023

Dear Supervisor Keding:

On behalf of the New York State agencies sponsoring the Climate Smart Communities Program, I congratulate you and the Town of Boston on adopting the Climate Smart Communities Pledge. Climate change is the defining issue of our generation; your commitment to reduce greenhouse gas emissions and prepare your community to deal with the effects of climate change will help protect both our citizens and our environment.

The Climate Smart Communities Program is an important partnership between local and state governments that makes a positive difference in the lives of New Yorkers. The program focuses on technical, financial, and leadership resources to help local governments reduce greenhouse gas emissions and adapt their communities to a changing climate.

The Climate Smart Communities Program is a joint effort of seven New York State agencies: Department of Environmental Conservation (DEC), Department of State, Department of Transportation, Department of Health, Department of Public Service, New York Power Authority, and the New York State Energy Research and Development Authority. DEC's Office of Climate Change acts as the administrator for Climate Smart Communities.

Guidance for the initial climate-smart steps that communities can take is available at www.dec.ny.gov/energy/76483.html. Learn how the Climate Smart Communities Certification Program honors the municipal leaders who demonstrate the economic and environmental benefits of local climate action at <https://climatesmart.ny.gov/>.

This is an "all-hands-on deck" moment in history. New York State is leading the nation with the passage and implementation of the Climate Leadership and Community Protection Act (<https://climate.ny.gov/>) which requires state-wide greenhouse gas emission reductions of 85 percent by 2050, prioritizes the development of our state's green workforce through investments in renewable energy, and calls on the state to prioritize emissions reductions and clean energy investment in disadvantaged communities and realize climate justice for all New Yorkers. None of this agenda will be possible without the work of our local governments. Your leadership in addressing climate change will be critical to all of us meeting our ambitious goals.

Department of
Environmental
Conservation

2.

Please contact Dazzle Ekblad at (518) 402-8448 or climatesmart@dec.ny.gov if you have any questions regarding the program.

Sincerely,

SLFRF Compliance Report - NY1405 - P&E Report - 2023

Report Period : Annual March 2023

Recipient Profile

Recipient Information

Recipient UEI	ZNNCSKUL57R4
Recipient TIN	166002185
Recipient Legal Entity Name	Town Of Boston, NY
Recipient Type	Metro City or County
FAIN	
CFDA No./Assistance Listing	
Recipient Address	8500 Boston State Road
Recipient Address 2	
Recipient Address 3	
Recipient City	Boston
Recipient State/Territory	NY
Recipient Zip5	14025
Recipient Zip+4	
Recipient Reporting Tier	Tier 5. Metropolitan cities and counties with a population below 250,000 residents that are allocated less than \$10 million in SLFRF funding, and NEUs that are allocated less than \$10 million in SLFRF funding
Base Year Fiscal Year End Date	12/31/2022
Discrepancies Explanation	
Is the Recipient Registered in SAM.Gov?	Yes

Project Overview

Project Name: North Boston Park Shelter

Project Identification Number	190
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.2-Non-federal match for other Federal Programs
Status To Completion	
Total Cumulative Obligations	\$366,700.00
Total Cumulative Expenditures	\$187,072.90
Current Period Obligations	\$366,700.00
Current Period Expenditures	\$187,072.90
Project Description	The Town of Boston tore down an unsafe structure and reconstructed a new open air pavilion and public restroom in the park at the north end of town. This building will provide restrooms, water fountains, and covered picnic tables for anyone frequenting the park's walking trails, playground, or sports fields.

Project Name: Watermain Replacement - Boston State Road

Project Identification Number	16013
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.2-Non-federal match for other Federal Programs
Status To Completion	Completed 50% or more
Total Cumulative Obligations	\$315,879.00
Total Cumulative Expenditures	\$297,728.32
Current Period Obligations	\$315,879.00
Current Period Expenditures	\$262,101.32
Project Description	The Town of Boston is replacing approximately 1,150 feet of watermain along Boston State Road. The project consists of the construction of new 12-inch PVC watermain and associated services, valves, and hydrants. This section of watermain is the primary feed into the Town's Water District #1 infrastructure. Both engineering costs and construction costs are considered eligible project expenses.

Report

Revenue Replacement

Is your jurisdiction electing to use the standard allowance of up to \$10 million, not to exceed your total award allocation, for identifying revenue loss?	Yes
Revenue Loss Due to Covid-19 Public Health Emergency	\$828,407.76
Were Fiscal Recovery Funds used to make a deposit into a pension fund?	No
Please provide an explanation of how revenue replacement funds were allocated to government services	The Town of Boston is allocating the funds towards general government services regarding water infrastructure and parks and recreation. The Town will be using its funding towards updating the 50-year-old water infrastructure that has been starting to have more frequent breaks as well as the construction of an updated park shelter including bathrooms and an outdoor picnic area. As of 3/31/2023, the first water project and the park shelter are almost completed, whereas the other anticipated water projects have not completed the bid process yet.

TOWN OF BOSTON, NEW YORK
Notes to the Annual Update Document (Unaudited)
Year Ended December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The New York State Annual Financial Report Update Document (the “AUD”) of the Town of Boston, New York (the “Town”) has been prepared in conformity with the format prescribed by the New York State Office of the State Comptroller Annual Update Document guidelines. The Governmental Accounting Standards Board (“GASB”) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Town’s accounting policies are described below.

Reporting Entity

The Town is a unit of local government created by the State of New York. The Town operates under provisions of New York State law and various local laws. The five-member Town Board is the legislative body responsible for overall operations. The Supervisor serves as both Chief Executive Officer and Chief Fiscal Officer.

Independently elected officials of the Town include:

Supervisor	Town Clerk / Receiver of Taxes
Councilmembers (4)	Superintendent of Highways
Town Justices (2)	

All governmental activities and functions performed for the Town are its direct responsibility. No other governmental organizations have been included or excluded from the reporting entity.

Basis of Presentation—AUD

The AUD provides information about the Town’s governmental funds. Separate statements for each fund category are presented. The Town reports the following governmental funds:

- *General Fund*—this is the principal operating fund of the Town and accounts for all financial resources of the general government, except those accounted for in another fund. The principal source of revenue is non-property tax items.
- *Highway Fund*—this is used to record all revenues and expenditures related to road maintenance and construction throughout the Town. Major revenue sources include real property taxes, sales tax and State aid.
- *Water Fund*—this is used to record all revenues and expenditures related to operation and maintenance of the Town’s water districts. Major revenue sources consist primarily of real property taxes.
- *Ambulance Fund*—this is used to record all revenues and expenditures related to emergency medical services within the Town. The principal source of revenue for the Ambulance Fund is real property taxes.

- *Garbage and Refuse Fund*—this is used to record all activity related to the garbage pickup and recycling within the Town. The principal source of revenue for the Garbage and Refuse Fund is real property taxes.
- *Lighting Fund*—this is used to record the revenues and expenditures related to lighting maintenance in the Town's lighting districts. The principal source of revenue for the Lighting Fund is real property taxes.
- *Fire Protection Fund*—this is used to record the revenues and expenditures related to fire protection in the Town. The principal source of revenue for the Fire Protection Fund is real property taxes.
- *Capital Projects Fund*—this is used to account for financial resources to be used for the acquisition and construction of major capital assets.

During the course of operations the Town has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds.

Further, certain activity occurs during the year involving transfers of resources between funds. In the AUD these amounts are reported at gross amounts as transfers in/out.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the AUD.

The AUD is reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period of availability. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the Town.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Balances

Cash, Cash Equivalents and Investments—The Town’s cash, cash equivalents, and investments consist of cash on hand, demand deposits, time deposits and short-term, highly liquid investments with original maturities of three months or less from the date of acquisition. New York State law governs the Town’s investment policies. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities.

Restricted Cash and Cash Equivalents— Restricted cash and cash equivalents represents unspent proceeds of debt, amounts to support fund balance restrictions, and amounts with constraints placed on their use by either external parties and/or statute.

Restricted Investments—The Town’s restricted investments consist of annuity contracts related to the Town’s Length of Service Award Programs (“LOSAPs”). The Town records investments at fair value based on quoted market value.

Receivables—Receivables include amounts due from state and federal governments which represent amounts owed to the Town to reimburse it for expenditures incurred pursuant to state and federally funded programs. Receivables are recorded and revenues recognized as earned. Allowances are recorded when appropriate.

Prepaid Items—Certain payments reflect costs applicable to future accounting periods and are recorded as prepaid items. The cost of prepaid items is recorded as expenditures when consumed rather than when purchased.

Other Liabilities—Represents unearned revenue related to American Rescue Plan Act (“ARPA”) federal funds as well as a New York State Energy Research and Development Authority (NYSERDA) grant.

Capital Assets—Capital assets, which include land, buildings, improvements, equipment, right-to-use leased equipment, construction in progress, and infrastructure assets, are reported in Schedule K to the AUD.

Capital assets are defined by the Town as assets with an estimated useful life in excess of one year and a value equal to or greater than the capitalization thresholds stated below. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed. The reported value excludes normal maintenance and repairs, which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at acquisition value. Major outlays for capital assets and improvements are capitalized as projects are completed. Right-to-use leased equipment are initially measured as the amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs and are amortized on a straight-line basis over their useful lives.

Land and construction in progress are not depreciated. The other capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

	Capitalization Threshold	Useful Life (years)
Improvements	\$ 5,000	20
Buildings	\$ 5,000	40
Machinery and Equipment	\$ 1,000	3-20
Right-to-use leased equipment	\$ 5,000	5-20
Infrastructure	\$ 5,000	20-50
Art and Historical Treasures	\$ 1,000	3-50

Deferred Outflows/Inflows of Resources—*Deferred outflows of resources* represent a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. At December 31, 2022, in Note 6 and Note 7 to the AUD, the Town discloses a deferred outflow related to pensions. This represents the effect of the net change in the Town's proportion of the collective net pension asset or liability, and the difference during the measurement period between the Town's contributions and its proportionate share of the total contribution to the pension systems not included in the pension expense and any contributions to the pension systems made subsequent to the measurement date.

In addition to liabilities, *deferred inflows of resources* represent an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. At December 31, 2022, in Note 6 and Note 7 to the AUD, the Town discloses a deferred inflow representing the effect of the net change in the Town's proportion of the collective net pension liability and the difference during the measurement periods between the Town's contributions and its proportionate share of total contributions to the pension systems not included in pension expense and it is reported on the government-wide statements. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. The Town also recognizes in Note 10 to the AUD, a lease receivable and associated deferred inflow of resources on the balance sheet of governmental funds at the commencement of a lease and amortized over the life of the lease.

Fund Balance Flow Assumptions—Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the AUD; a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies—Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Town itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town's highest level of decision-making authority. The Town Board is the highest level of decision-making authority for the government that can, by Town Board resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Town Board has authorized the Supervisor to assign fund balance. The Town Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Leases—The Town is contracted with other entities which qualify as lessor and lessee relationships. The amount within lease receivable includes the lease of the Trooper Barracks building to the State Troopers. Amounts within the lease liability includes a postage machine and two office printers. Additional information regarding leases is discussed in Note 10.

Revenues and Expenditures

Property Taxes—The Erie County Legislature prepares the levy in late December of each year and jointly bills the Town levy and Erie County real property taxes. Property taxes are levied and become a lien as of January 1 based on assessed property values as of that date.

For 2022, tax payments were due January 1st to March 15th without penalty; March 16th to May 2nd had a 7.5% penalty; and 1.5% additional penalty added each month thereafter.

The tax roll is returned to the Erie County Commissioner of Finance after July 1st at which time all unpaid taxes and penalties are payable to that office. The Town retains their full tax levies for all unpaid items that are returned to the County. Thus, the Town is assured of receiving 100% of its tax levy. The County enforces all liens.

Pensions—The Town is mandated by New York State law to participate in the New York State Local Employees' Retirement System ("ERS"). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans, and changes thereof, have been determined on the same basis as they are reported by the respective defined benefit pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. More information regarding pensions is included in Note 6 to the AUD.

Length of Service Awards Program ("LOSAP")—The Town has adopted a Service Awards Program for firefighters and ambulance personnel that serve on a volunteer basis. The Program is administered by an outside agency, with the Town as trustee. More information on the Town's defined benefit and contribution plans and the related net pension liability related to LOSAP are included in Notes 7 and 8 to the AUD.

Other

Estimates—The preparation of the AUD, in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues, expenditures, assets, and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and during the reported period. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncements—During the year ended December 31, 2022, the Town implemented GASB Statements No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*, and *Amendments to Certain Provisions of GASB Statements 67 and 68*; and No. 87, *Leases*.

- GASB Statement No. 73 improves the usefulness of information about pensions included in the general purpose external financial reports of local governments for making decisions and assessing accountability. This statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68. This was already adopted for the Town's representation of the State Retirement System pension obligations (Note 6) but was newly implemented for the Town's Fire LOSAP program (Note 7).
- GASB Statement No. 87 better meets the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Now, there is a single model for lease accounting where a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The implementation of GASB Statements No. 73, and 87 did not have a material impact on the Town's financial position or results from operations.

Future Impacts of Accounting Pronouncements—The Town has not completed the process of evaluating the impact that will result from adopting GASB Statements No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*; No. 96, *Subscription-Based Information Technology Arrangements*, and No. 99, *Omnibus 2022*, effective for the year ending December, 31, 2023, and No. 100, *Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62*, and No. 101, *Compensated Absences*, effective for the year ending December 31, 2024. The Town is, therefore, unable to disclose the impact that adopting GASB Statements No. 94, 96, 99, 100, and 101 will have on its financial position and results of operations when such statements are adopted.

Stewardship, Compliance and Accountability – Legal Compliance – Budgets

Legal Compliance—Budgets—The Town follows these procedures in establishing the budgetary data reflected in the AUD:

- Prior to September 30th, the Town Supervisor files a “tentative” budget with the Town Clerk for the following fiscal year to commence on January 1st. This budget, which includes appropriations and estimated revenues, is then presented to the full Town Board by October 5th.
- The full Town Board reviews the tentative budget and may adjust before approving a “preliminary” budget and calling for a public hearing, which is generally held in October.
- Following the public hearing, revisions may again be made by the Town Board before filing an adopted budget with Erie County by November 20th.
- Formal annual budgetary accounts are employed as a management control device for the General and Special Revenue Funds
- During the fiscal year, the Town Board can legally amend the operating budgets and is empowered to implement supplemental appropriations. Budget amendments are required for the departmental budgetary control. All budget amendments and budget transfers require Town Board approval.

Deficit Fund Balance—The Town’s Capital Projects Fund reported a deficit fund balance of \$209,918 at December 31, 2022. The Town anticipates this deficit will be remedied through future issuance of long-term debt.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

The Town’s investment policies are governed by State statutes. Town monies must be deposited in FDIC-insured commercial banks or trust companies located within New York State. The Town is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by Federal deposit insurance. The Town has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligation that may be pledged as collateral. Obligations that may be pledged as collateral are outlined in Chapter 623 of the laws of the State of New York.

Total cash and cash equivalents at December 31, 2022, are shown below:

	Governmental Funds
Petty Cash (uncollateralized)	\$ 500
Deposits	7,044,774
Total	<u>\$ 7,045,274</u>

Deposits—All deposits are carried at fair value, and are classified by custodial credit risk at December 31, 2022 as follows:

	<u>Carrying Amount</u>
Insured (FDIC)	\$ 250,000
Uninsured:	
Collateral held by bank's agent in the Town's name	<u>6,794,774</u>
Total	<u>\$ 7,044,774</u>

Custodial Credit Risk—Deposits—Custodial credit risk is the risk that in the event of a bank failure, the Town’s deposits may not be returned to it. As noted above, by State statute all deposits in excess of FDIC insurance coverage must be collateralized. At December 31, 2022, the Town’s deposits were either FDIC insured or collateralized with securities held by the pledging bank’s agent in the Town’s name.

Interest Rate Risk—Deposits—In accordance with its investment policy, the Town manages exposures by limiting investments to low risk type investments governed by New York State statute.

Restricted Cash and Cash Equivalents—Restricted cash and cash equivalents represents amounts to support fund balance restrictions and amounts with constraints placed on their use by either external parties and/or statute, as well as unspent proceeds of debt. At December 31, 2022, the Town reported \$2,278,330 cash and cash equivalents as restricted.

Restricted Investments—All investments are reported using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by GAAP, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are presented below:

- Level 1. Quoted prices for identical assets or liabilities in active markets to which the Town has access at the measurement date.
- Level 2. Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets in markets that are not active;
 - Observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and
 - Inputs derived principally from, or corroborated by, observable market data correlation or by other means
- Level 3. Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure fair value to the extent that observable inputs are not available.

The Town's restricted investments consist of annuity contracts related to the Town's Length of Service Award Programs ("LOSAP"), a defined benefit volunteer firefighter award program (See Note 7) and a defined contribution volunteer ambulance worker program (See Note 8). These annuities are guaranteed fixed annuities. The interest on each annuity varies but they are all fixed rate with a guaranteed minimum rate for a specific period.

As of December 31, 2022, the Town has annuity funds that are valued using observable inputs other than quoted prices and inputs derived from observable market data correlation (level 2 input) in the amounts of \$2,154,324 recorded within the Fire Protection Fund, and \$587,667 recorded within the Ambulance Fund.

3. RECEIVABLES

Major revenues accrued by the Town at December 31, 2022 include:

Receivables—Represents amounts due from various sources. The Town's significant accounts receivable at December 31, 2022 are presented below:

	General Fund	Highway Fund	Total
Franchise Fee	\$ 32,147	\$ -	\$ 32,147
Sale of Equipment	-	9,300	9,300
	<u>\$ 32,147</u>	<u>\$ 9,300</u>	<u>\$ 41,447</u>

Lease Receivable—During the year ended December 31, 2022, the Town began recognizing the lease of a building to a third party. The lease has twelve remaining years and the Town receives monthly payments of \$7,400. The Town recognized \$56,968 in lease revenue and \$33,440 in interest revenue during the current fiscal related to this lease. As of December 31, 2022 the Town's receivable for lease payments was \$832,697. Also, the Town has a deferred inflow of resources associated with this lease that will be recognized as revenue over the lease term. As of December 31, 2022 the balance of the deferred inflow of resources was \$678,875.

Intergovernmental Receivables—Represents amounts due from other units of government, such as Federal, New York State, County of Erie or other local governments. Amounts due the Town at December 31, 2022 are:

	General Fund	Highway Fund	Garbage and Refuse Fund	Capital Projects Fund	Total
Federal - CDBG	\$ 109,300	\$ -	\$ -	\$ 26,012	\$ 135,312
NYS - Trooper Rent, CHIPS	7,400	95,472	-	-	102,872
Erie County - Clean up, Stop DWI	620	-	-	-	620
Various Town Departments	16,463	62,208	953	-	79,624
	<u>\$ 133,783</u>	<u>\$ 157,680</u>	<u>\$ 953</u>	<u>\$ 26,012</u>	<u>\$ 318,428</u>

4. CAPITAL ASSETS

The Town's capital asset activity for Schedule K to the AUD for the year ended December 31, 2022, is as follows:

	Balance 1/1/2022	Increases	Decreases	Balance 12/31/2022
Capital assets, not being depreciated:				
Land	\$ 203,600	\$ -	\$ -	\$ 203,600
Construction Work in Progress	35,627	1,005,508	-	1,041,135
Total capital assets, not being depreciated	239,227	1,005,508	-	1,244,735
Capital assets, being depreciated:				
Buildings	4,574,209	-	(5,000)	4,569,209
Improvements	1,024,606	-	-	1,024,606
Machinery & Equipment	3,009,206	447,658	(119,893)	3,336,971
Right-to-use leased equipment	-	28,410	-	28,410
Infrastructure	1,196,873	-	-	1,196,873
Art and Historical Treasures	1,140	-	-	1,140
Total capital assets, being depreciated	9,806,034	476,068	(124,893)	10,157,209
Less accumulated depreciation for:				
Buildings	(2,289,599)	(55,692)	5,000	(2,340,291)
Improvements	(175,481)	(51,230)	-	(226,711)
Machinery & Equipment	(2,124,423)	(129,131)	119,893	(2,133,661)
Right-to-use leased equipment	-	(11,225)	-	(11,225)
Infrastructure	(704,933)	(15,869)	-	(720,802)
Art and Historical Treasures	(6)	(38)	-	(44)
Total accumulated depreciation	(5,294,442)	(263,185)	124,893	(5,432,734)
Total capital assets, being depreciated, net	4,511,592	212,883	-	4,724,475
Total capital assets, net	\$ 4,750,819	\$ 1,218,391	\$ -	\$ 5,969,210

5. ACCRUED LIABILITIES

Accrued liabilities reported by governmental funds at the Town as of December 31, 2022, were as follows:

	General Fund	Highway Fund	Total Governmental Funds
Salary and employee benefits	\$ 7,402	\$ 18,491	\$ 25,893
Total	\$ 7,402	\$ 18,491	\$ 25,893

6. RETIREMENT SYSTEM PENSION PLAN

Plan Descriptions and Benefits Provided

New York State and Local Employees' Retirement System ("ERS")—The Town participates in the ERS (the "System"). The System provides retirement benefits as well as death and disability benefits. The net position of the Systems are held in the New York State Common Retirement Fund (the "Fund"), which was established to hold all assets and record changes in fiduciary net position allocated to the Systems. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the Systems. System benefits are established under the provisions of the New York State Retirement and Social Security Law ("NYSRSSL"). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Town also participates in the Public Employees' Group Life Insurance Plan ("GLIP"), which provides death benefits in the form of life insurance. ERS is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The ERS is noncontributory, except for employees who joined the ERS after July 27, 1976, who contribute three percent (3%) of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute three percent (3%) to six percent (6%) of their salary for their entire length of service. In addition, employee contribution rates under ERS Tier VI vary based on a sliding salary scale. The Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions—At December 31, 2022, the Town reported the following asset for its proportionate share of the net pension liability for the ERS. The net pension liability (asset) was measured as of March 31, 2022. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of April 1, 2021, with update procedures used to roll forward the total pension liability to the measurement date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the System relative to the projected contributions of all participating members, actuarially determined. This information was provided by the System in reports provided to the Town.

	ERS
Measurement date	March 31, 2022
Net pension liability (asset)	\$ (284,613)
Town's portion of the Plan's total net pension liability	0.0034817%

For the year ended December 31, 2022, the Town recognized a pension expense of \$20,478 for ERS. At December 31, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	ERS	
Differences between expected and actual experiences	\$ 21,554	\$ 27,957
Changes of assumptions	474,988	8,015
Net difference between projected and actual earnings on pension plan investments	-	931,989
Changes in proportion and differences between the Town's contributions and proportionate share of contributions	43,482	34,525
Town contributions subsequent to the measurement date	85,886	-
Total	<u>\$ 625,910</u>	<u>\$ 1,002,486</u>

Town contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ending December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	ERS
2023	\$ (64,449)
2024	(95,293)
2025	(247,486)
2026	(55,234)

Actuarial Assumptions—The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions presented below:

	ERS
Measurement date	March 31, 2022
Actuarial valuation date	April 1, 2021
Interest rate	5.90%
Salary scale	4.40%
Decrement tables	April 1, 2015- March 31, 2020
Inflation rate	2.7%
Cost-of-living adjustments	1.4%

Annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System's experience with adjustments for mortality improvements based on Society of Actuaries' Scale MP-2020. The previous actuarial valuations as of April 1, 2020 used the same assumptions to measure the total pension liability. The actuarial assumptions used in the April 1, 2021 valuation are based on the results of an actuarial experience study for the period April 1, 2015 – March 31, 2020.

The long-term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates

of return by each the target asset allocation percentage and by adding expected inflation. The best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

Measurement date	ERS	
	Target Allocation	Long-Term Expected
		Real Rate of Return
	March 31, 2022	
Asset class:		
Domestic equities	32.0 %	3.30 %
International equities	15.0	5.85
Private equity	10.0	6.50
Real estate	9.0	5.00
Opportunistic/Absolute Return Strategy	3.0	4.10
Credit	4.0	3.78
Real assets	3.0	5.80
Fixed Income	23.0	0.00
Cash	1.0	(1.00)
Total	100.0 %	

Discount Rate—The discount rate used to calculate the total pension liability was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption—The following chart presents the Town's proportionate share of the net pension liability calculated using the discount rate of 5.9%, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (4.9%) or one percentage-point higher (6.9%) than the current assumption.

	Decrease (4.9%)	Assumption (5.9%)	Increase (6.9%)
Employer's proportionate share of the net pension liability (asset)—ERS	\$ 732,592	\$ (284,613)	\$ (1,135,456)

Pension Plan Fiduciary Net Position—The components of the current-year net pension liability of the employers as of March 31, 2022, are shown on the following page:

	(Dollars in Thousands)
	ERS
Employers' total pension liability	\$ 223,874,888
Plan fiduciary net position	(232,049,473)
Employers' net pension liability (asset)	\$ (8,174,585)
Ratio of fiduciary net position to the employers' total pension liability	103.65%

7. PENSION OBLIGATIONS—FIRE LOSAP

Plan Description—The Town established a defined benefit Length of Service Awards Program (“LOSAP”) for the active volunteer firefighters of Boston Volunteer Fire Company, North Boston Volunteer Fire Company, and Patchin Volunteer Fire Company. The Program was established pursuant to Article 11-A of the General Municipal Law. The Program provides municipally-funded pension-like benefits to facilitate the recruitment and retention of active volunteer firefighters. The Town is the sponsor of the program.

Certain information contained in this note is based on information for the LOSAP based on a measurement date of December 31, 2021, which is the most recent valuation date for which complete information is available.

Participation, vesting and service credit—Active volunteer firefighters who have reached the age of eighteen and who have completed one year of firefighting service are eligible to participate in the program. The program’s entitlement age is age sixty, or age after first earning a year of Service Credit under the Point System. In general, an active volunteer firefighter is credited with a year of firefighting service for each calendar year after the establishment of the program in which he or she accumulates fifty points. Points are granted for the performance of certain activities in accordance with a system established by the sponsor on the basis of a statutory list of activities and point values.

Benefits—A participant’s benefit under the program is the actuarial equivalent of a monthly payment for life equal to twenty dollars multiplied by the person’s total number of years of firefighting service. The number of years of firefighting service used to compute the benefit cannot exceed forty (including any Prior Service Credit). Except in the case of disability or death, benefits are payable when a participant reaches entitlement age. The program provides statutorily mandated death and disability benefits.

Participants Covered by the Benefit Terms—At the December 31, 2021 measurement date, the participants covered by the benefit terms were as follows:

Inactive participants currently receiving benefit payments	87
Inactive participants entitled to but not yet receiving benefit payments	42
Active participants	50
Total	179

Measurement of Total Pension Liability

The total pension liability at the December 31, 2021 measurement date was determined using an actuarial valuation as of that date.

Actuarial Assumptions—The total pension liability at the December 31, 2021 measurement date was determined using the following actuarial assumptions, applied to all period included in the measurement:

Actuarial Cost Method:	Entry Age Normal
Inflation:	2.25%
Salary Scale:	None assumed

Mortality rates were based on the RP-2014 Male Mortality Table without projection for mortality improvement.

Discount Rate—The discount rate used to measure the total pension liability was 2.24%. This was the yield to maturity of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2021. In describing this index, S&P Dow Jones Indices notes that the index consists of bonds in the S&P Municipal Bond Index with a maturity of 20 years and with a rating of at least Aa2 by Moody's Investors Service's, AA by Fitch, or AA by Standard & Poor's Rating Services.

Changes in the Total Pension Liability

	Total Pension Liability
Balance as of 12/31/2020 measurement date	<u>\$ 8,268,822</u>
Changes for the year:	
Service Cost	145,610
Interest	159,109
Changes of assumptions of other inputs	(330,320)
Differences between expected and actual experience	22,715
Benefit payments	<u>(340,868)</u>
Net changes	<u>(343,754)</u>
Balance as of 12/31/2021 measurement date	<u>\$ 7,925,068</u>

Sensitivity of the Total Pension Liability to the changes in the discount rate—The following presents the total pension liability of the Town as of the December 31, 2021 measurement date, calculated using the discount rate of 2.24%, as well as what the Town's total pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.24%) or 1-percentage point higher (3.24%) than the current rate:

	1% Decrease (1.24%)	Current Discount Rate (2.24%)	1% Increase (3.24%)
Total pension liability	\$ 9,072,923	\$ 7,925,068	\$ 6,990,907

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions—For the year ended December 31, 2022, the Town recognized pension expense of \$459,680. At December 31, 2022 the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 18,991	\$ 35,100
Changes of assumptions or other inputs	\$ 891,294	\$ 276,169
Benefit payments & administrative expenses subsequent to the measurement date	403,061	-
Total	<u>\$ 1,313,346</u>	<u>\$ 311,269</u>

Deferred outflows of resources related to pensions resulting from Town transactions subsequent to the measurement date will be recognized as a reduction of the total pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	
2023	\$ 144,163
2024	144,163
2025	144,163
2026	144,163
2027	27,407
Thereafter	(5,043)

Trust Assets—Although assets have been accumulated in an irrevocable trust such that the assets are dedicated to providing pensions to plan members in accordance with benefit terms, the trust assets are not legally protected from creditors of the Town. As such, the trust assets do not meet the criteria in paragraph 4 of GASB Statement No. 73.

Fiduciary Investment and Control—Service credit is determined by the governing board of the sponsor, based on information certified to the governing board by each fire company having members who participate in the program. Each fire company must maintain all required records on forms prescribed by the governing board. The governing board of the sponsor has retained and designated Penflex, Inc. to assist in the administration of the program.

Authority to invest program assets is vested in the Investment Committee. Subject to restrictions in the program document, program assets are invested in accordance with a statutory “prudent person” rule.

The sponsor is required to retain an actuary to determine the amount of the sponsor’s contributions to the plan. The actuary retained by the sponsor for this purpose is Penflex, Inc. Portions of the following information are derived from the most recent report prepared by the actuary, dated January 1, 2022.

Statement of Net Program Assets

Actuarial present value of benefits at January 1, 2022			\$ 5,623,649
Less: Assets available for benefits			
<i>Cash and short-term investments:</i>	<u>% of total</u>		
Cash and cash equivalents	3.9%	\$	100,726

January payments made in December	1.2%		30,948
Benefits payable	-0.5%		<u>(13,080)</u>
Net program assets available for benefits			<u>2,612,629</u>
Current total unfunded benefits			<u>\$ 3,011,020</u>

Statement of Changes in Net Program Assets

Plan net assets, January 1, 2021		\$2,549,887
Changes during the year:		
Add: Plan contributions	\$ 200,000	
Net investment income	203,610	
Less: Plan benefit withdrawals	(376,696)	
Changes in benefits payable	<u>35,828</u>	
Net change		<u>62,742</u>
Plan net assets, December 31, 2021		<u>\$ 2,612,629</u>

Contributions and Administrative Fees

Town contributions and fees amounted to \$393,189 and \$8,260, respectively, during the year ended December 31, 2022.

Funding Methodology and Actuarial Assumptions

The actuarial valuation methodology used by the actuary to determine the sponsor's contribution is the attained age normal cost method. The assumptions used by the actuary to determine the sponsor's contribution and the actuarial present value of benefits are based on an assumed rate of return on investment of 5%.

Mortality Tables used for retirement are based on the RP-2014 Male Table without projection.

The Town accounts for service award program assets within its Fire Protection Fund. The fair value of these program assets as of December 31, 2022 is \$2,154,324.

8. PENSION OBLIGATIONS—EMS LOSAP

Plan Description—The Town established a defined contribution Length of Service Awards Program (the “LOSAP”) for the active ambulance volunteers of the Boston Emergency Squad. The Program was established pursuant to Article 11-A of the General Municipal Law. The Program provides municipally-funded pension-like benefits to facilitate the recruitment and retention of active volunteer ambulance workers. The Town is the sponsor of the program.

Program Description—

Participation, vesting and service credit—Active volunteers are eligible to participate in the program and become fully vested upon earning five (5) years of service credits or upon being awarded a total and permanent disability. The program's entitlement age is age sixty (60) and the maximum service credit allowable is forty (40) years.

Benefits—A participant's benefit under the program is equal to \$700 per year of service. The program provides statutorily mandated death and disability benefits.

Fiduciary Investment and Control—Service credit is determined by the governing board of the sponsor, based on information certified to the governing board by the Emergency Squad. The governing board of the sponsor has retained and designated Penflex, Inc. to assist in the administration of the program.

Program assets are required to be held in trust by LOSAP legislation, for the exclusive purpose of providing benefits to participants and their beneficiaries or for the purpose of defraying the reasonable expenses of the operation and administration of the program.

Authority to invest program assets is vested in the Investment Committee. Subject to restrictions in the program document, program assets are invested in accordance with a statutory “prudent person” rule.

The sponsor is required to retain an actuary to determine the amount of the sponsor's contributions to the plan. The actuary retained by the sponsor for this purpose is Penflex, Inc. Portions of the following information are derived from the most recent report prepared by the actuary, dated December 31, 2022.

Program Financial Condition

Asset Reconciliation

Share of Trust Account, January 1, 2022		\$ 748,279
Changes during the year:		
Add: Plan contributions	\$ 12,463	
Net investment income	(88,304)	
Less: Administrative Charges	(2,149)	
Trustee Fees	(2,773)	
Distributions Made to Participant/Beneficiaries	<u>(79,849)</u>	
Net change		<u>(160,612)</u>
Share of Trust Account, December 31, 2022		<u>\$ 587,667</u>

Contributions and Administrative Fees

The actuary determined that the Town contributions owed during the 2022 calendar year totaled \$12,463. Administrative and Trustee Fees taken out of the account during the year ending December 31, 2022 were \$4,922 with an additional \$79,849 of distributions made to beneficiaries.

Plan Assets

The Town accounts for service award program assets within its Ambulance Fund. The fair value of these program assets as of December 31, 2022 is \$587,667.

9. RISK MANAGEMENT

The Town is exposed to various risks of loss related to damage and destruction of assets, vehicle liability, injuries to employees, health insurance, workers' compensation, and unemployment insurance. The Town purchases commercial insurance to cover such potential risks. There have not been any settlements which have exceeded commercial insurance coverage in the past three fiscal years.

The Town purchases insurance for: general property and liability, municipal crime, automobile, public officials liability, law enforcement liability, contractor's protective liability, excess catastrophe liability, inland marine, electronic equipment, and ground pollution relating to fuel storage tanks. General property is insured at a full replacement cost agreed upon at \$11,597,543. A Builder's Risk endorsement was added in the amount of \$425,000 on the North Boston Pavilion. General liability insurance is limited to \$1 million per occurrence, with a general aggregate \$3 million limit. General liability has an add on rider for network security loss with an annual aggregate of \$250,000. Municipal crime coverage ranges from \$25,000 to \$400,000 per occurrence. Automobile insurance is limited to \$1 million per accident. Public Officials Liability, Law Enforcement Liability, and Contractor's Protective Liability are all limited to \$1 million per occurrence and \$2 million in the aggregate. Excess catastrophe liability is limited to \$3 million per occurrence and \$6 million in the aggregate. Inland marine has various limits for each individually scheduled property and equipment with a total blanket limit of roughly \$2.71 million. Fuel storage tanks have a ground pollution liability of \$1 million.

10. LEASES

Lease Receivable—The Town is a lessor for a noncancellable lease of buildings. The Town recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements. At the commencement of a lease, the Town initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments related to leases include how the Town determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The Town uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease terms include the noncancellable period of the lease.
- Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The Town monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

As the lessor, the Town recognizes a long-term lease receivable and deferred inflow of resources for the use of the Trooper Barracks Building by the state police. The lease agreement runs for 20 years starting December 1, 2009 and ending November 30, 2029 with a five year renewal option beginning on December 1, 2029 and ending November 30, 2034. The agreement states that the remaining monthly payments will be \$7,400 per month through November 30, 2024, \$8,247 per month through November 30, 2029, and then if the renewal is granted, the additional five-year term will be negotiated at the time of the renewal request. As the Town built this building as part of the lease agreement, to the specifications agreed upon with the lessee, the Town reasonably expects the lease agreement to be renewed and thus includes the five-year renewal as part of the lease term. The discount rate applied to this lease is 3.5% as determined by the bond issued to finance the construction of the building. The value of the lease receivable as of December 31, 2022 is \$832,697. The value of the deferred inflow of resources is \$678,875 at December 31, 2022.

The future payments included in the measurement of the lease receivable at December 31, 2022 were as follows:

Fiscal Year Ending December 31,	Principal	Interest	Total
2023	\$ 57,329	\$ 31,471	\$ 88,800
2024	59,368	30,279	89,647
2025	61,479	37,485	98,964
2026	63,666	35,298	98,964
2027	65,930	33,034	98,964
2028-2032	366,539	128,281	494,820
2033 and thereafter	158,386	31,295	189,681
	<u>\$ 832,697</u>	<u>\$ 327,143</u>	<u>\$ 1,159,840</u>

Lease Payable—The Town is a lessee for a noncancellable lease of various equipment. The town recognizes a liability and an intangible right-to-use asset (lease asset) in the government-wide financial statements. The Town recognizes lease liabilities with an initial, individual value of \$5,000 or more. At the commencement of a lease, the Town initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the Town determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Town uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease terms include the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the right-to-use asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

As the lessee, the Town reports lease assets with other capital assets and lease liabilities with long-term debt on the schedule of long-term liabilities. The Town is lessee for office equipment such as printers and postage machines.

As of December 31, 2022, the value of the lease liability was \$17,542. The Town is required to make annual principal and interest payments on the equipment ranging from \$1,316 to \$2,834. The leases have imputed interest rates of 3.5%. The value of the right-to-use lease assets as of the end of the current fiscal year was \$28,410 and had accumulated amortization of \$11,225.

The future principal and interest payments as of December 31, 2022, were as follows:

Fiscal Year Ending December 31,	Principal	Interest	Total
2023	\$ 4,436	\$ 547	\$ 4,984
2024	4,367	397	4,764
2025	4,523	242	4,764
2026	3,260	87	3,348
2027	956	10	965
	<u>\$ 17,542</u>	<u>\$ 1,283</u>	<u>\$ 18,825</u>

11. SHORT-TERM DEBT

Liabilities for bond anticipation notes (“BANs”) are generally accounted for in the Capital Projects Fund. State law requires that BANs issued for capital purposes be converted to long-term obligations within five years after the original issue date. However, BANs issued for assessable improvement projects may be renewed for period’s equivalent to the life of the permanent financing, provided that annual reductions of principal are made. The following page shows a summary of the Town’s short-term debt for the year ended December 31, 2022:

Description	Interest Rate	Maturity Date	Balance 1/1/2022	Issues	Redemptions	Balance 12/31/2022
Capital Projects Fund:						
Bond anticipation notes	3.87%	10/6/2023	\$ -	\$ 1,013,790	\$ -	\$ 1,013,790
Total			-	1,013,790	-	1,013,790

12. LONG-TERM LIABILITIES

The Town’s outstanding long-term liabilities reported in Schedule W to the AUD include serial bonds, installment purchase contracts, lease liabilities, pension liabilities, and compensated absences.

Outstanding indebtedness as of December 31, 2022 aggregated \$4,469,310. Of this amount, \$3,806,932 relates to serial bonds issued for the purpose of water supply and distribution, \$635,000 relates to a serial bond issued on the construction of a Trooper Barracks building, and \$27,378 remains on an installment purchase contract. All long-term debts are exempt from the constitutional debt limit other than the \$635,000 serial bond which represents approximately 1.2% of the town’s debt limit. Further, the Trooper Barracks serial bond is eligible for redemption prior to maturity starting after March 1, 2022 at 100% of the par amount of the bonds to be redeemed, plus accrued interest to the date of redemption. All bonds payable of the Town are secured by its general credit and revenue raising powers, as per State statute.

A default will have occurred if the payment of principal or interest are not paid when due and payable. In the event of a default a provision is made for contract creditors (including the Bondholders) of the Town to enforce payments upon such contracts, if necessary, through court action, although the present statute limits interest on the amount adjudged due to creditors to nine per centum per annum from the date due to the date of payment. As a general rule, property and funds of a municipal corporation serving the public welfare and interest have not been judicially subjected to execution or attachment to satisfy a judgment, although judicial mandates have been issued to officials to appropriate and pay judgments out of current funds or the proceeds of a tax levy.

The Town does not hold any lines of credit.

A summary of changes in the Town's long-term liabilities at December 31, 2022 is presented below:

	Balance 1/1/2022	Additions	Reductions	Balance 12/31/2022	Due Within One Year
Serial bonds	\$ 4,689,865	\$ -	\$ 247,933	\$ 4,441,932	\$ 210,782
Installment Purchase Contract	40,369	-	12,991	27,378	13,452
Lease liability	-	17,542	-	17,542	4,436
Net pension liability-ERS*	3,553	-	3,553	-	-
Pension liability-Fire LOSAP	3,058,425	4,914,048	47,405	7,925,068	-
Compensated absences	142,664	31,449	-	174,113	17,411
Total	<u>\$ 7,934,876</u>	<u>\$ 4,963,039</u>	<u>\$ 311,882</u>	<u>\$ 12,586,033</u>	<u>\$ 246,081</u>

(*Reductions to the net pension liability are shown net of additions.)

Serial Bonds—The Town issues general obligation bonds to provide funds for the acquisition, construction, and renovation of major capital facilities. General obligation bonds have been issued for governmental activities. General obligation bonds are direct obligations and pledge the full faith and credit of the Town. These bonds generally are issued as serial bonds with equal amounts of principal maturing each year with maturities that range from 10 to 38 years.

Principal is paid annually, interest is paid semi-annually; these payments are recorded in the associated fund, either being General or Water Funds. A summary of additions and payments for the year ended December 31, 2022, is presented below:

Description	Original Issue	Interest Rate (%)	Year of Issue/ Maturity	Balance 1/1/2022	Additions	Reductions	Balance 12/31/2022	Due Within One Year
General Fund:								
Trooper Barracks	\$ 1,000,000	3.5	2012/2034	\$ 675,000	\$ -	\$ 40,000	\$ 635,000	\$ 45,000
Total General Fund				<u>675,000</u>	<u>-</u>	<u>40,000</u>	<u>635,000</u>	<u>45,000</u>
Water Fund:

Total Water Fund				<u>4,014,865</u>	<u>-</u>	<u>207,933</u>	<u>3,806,932</u>	<u>165,782</u>
Total governmental activities				<u>\$ 4,689,865</u>	<u>\$ -</u>	<u>\$ 247,933</u>	<u>\$ 4,441,932</u>	<u>\$ 210,782</u>

Installment Purchase Contract—On August 29, 2016, the Town entered into a long-term installment purchase contract for an ambulance. The amount outstanding totals \$28,846 of which \$1,468 represents imputed interest costs. The present value of the contract at December 31, 2022 is \$27,378.

Annual payments are \$14,423, with final payments due September 29, 2024. The nominal rate is 3.5%. The obligation under the installment purchase can be summarized as follows:

Year ending December 31,	
2023	\$ 14,423
2024	14,423
Total minimum lease payments	28,846
Less: amount representing imputed interest costs	(1,468)
Present value of minimum lease payments	<u>\$ 27,378</u>

Lease Liability—The Town holds long-term capital leases for various equipment. The outstanding balance at December 31, 2022 was \$17,542. Refer to Note 10 for additional information related to the Town's leases.

Net Pension Liability-ERS—In Schedule W to the AUD, the Town removed its prior liability of \$3,553, for its proportionate share of the net pension liability related to the Employee Retirement System as the balance is now an asset. Refer to Note 6 for additional information related to the Town's net pension liability (asset).

Pension Liability-Fire LOSAP—In Schedule W to the AUD, the Town reported a liability of \$7,925,068, for its pension liability related to the Fire Length of Service Award Program (LOSAP). Refer to Note 7 for additional information related to the Town's pension liability.

Compensated Absences—As explained in Note 1, the Town accrues the value of governmental fund type compensated absences. The value accrued at December 31, 2022 is \$174,113. Management estimates that \$17,411 is due within one year. Since payments of compensated absences are dependent upon many factors, timing of future payments is not readily determinable.

A maturity schedule of the Town's indebtedness is presented below:

Year ending December 31,	Serial Bonds	Installment Purchases	Lease Liability	Pension Liability Fire LOSAP	Compensated Absences	Total
2023	\$ 210,782	\$ 13,452	\$ 4,436	\$ -	\$ 17,411	\$ 246,081
2024	171,750	13,926	4,367	-	-	190,043
2025	176,550	-	4,523	-	-	181,073
2026	186,450	-	3,260	-	-	189,710
2027	191,450	-	956	-	-	192,406
2028-2032	1,065,550	-	-	-	-	1,065,550
2033-2037	1,042,900	-	-	-	-	1,042,900
2038-2042	815,200	-	-	-	-	815,200
2043-2047	479,300	-	-	-	-	479,300
2048 and thereafter	102,000	-	-	7,925,068	156,702	8,183,770
Total	<u>\$ 4,441,932</u>	<u>\$ 27,378</u>	<u>\$ 17,542</u>	<u>\$ 7,925,068</u>	<u>\$ 174,113</u>	<u>\$ 12,586,033</u>

Interest requirements on serial bonds payable are as follows:

Year ending December 31,	Interest
2023	\$ 155,857
2024	148,749
2025	142,424
2026	135,500
2027	128,544
2028-2032	536,529
2033-2037	340,605
2038-2042	158,860
2043-2047	59,113
2048 and thereafter	3,065
Total	<u>\$ 1,809,246</u>

13. FUND BALANCE

In the AUD, nonspendable amounts represent net current financial resources that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The Town maintained the following nonspendable fund balance at December 31, 2022:

- **Prepaid items**—Represents amounts prepaid to the retirement system that are applicable to future accounting periods. The General Fund and the Highway Fund reported amounts of \$18,036 and \$10,593, respectively.

In the AUD, restricted fund balances are amounts constrained to specific purposes (such as creditors, grantors, contributors, or laws and regulations of other governments) through constitutional provisions or by enabling legislation.

At December 31, 2022, the Town reported the following restricted fund balances:

- **Restricted for General Capital Projects**—Represents amounts, \$356,758, restricted for the construction of various general fund capital projects.
- **Restricted for Tax Stabilization**—Represents amounts, \$84,593, restricted by the Town Board in accordance with general municipal law section 6-e to be used for future unanticipated events.
- **Restricted for Highway Equipment**—Represents amounts, \$289,695, restricted for the purchase of highway equipment.
- **Restricted for Water Debt**—Represents amounts, \$353,660, restricted for the reduction of future debt service requirements.
- **Restricted for Ambulance Equipment**—Represents amounts, \$179,834, restricted for the purchase of ambulance equipment.
- **Restricted for Fire LOSAP**—Represents amounts, \$2,154,324, for the administration of the Town's Fire LOSAP.

- ***Restricted for EMS LOSAP***—Represents amounts, \$587,667, for the administration of the Town’s Ambulance LOSAP.

In the AUD, commitments are amounts that are subject to a purpose constraint imposed by a formal action of the Town’s highest level of decision-making authority. As of December 31, 2022, the Town reported the following committed fund balance:

- ***Encumbrance for General Fund Equipment*** —Represents amounts, \$69,542, for the purchase of a water district consolidation study and parks pickup truck agreed upon by board resolution.
- ***Encumbrance for Highway Equipment*** —Represents amounts, \$57,200, for the purchase of a highway pickup truck as agreed upon by board resolution.

In the AUD, assignments are not legally required segregations but are segregated for a specific purpose by the Town. At December 31, 2022, the Town reported the following fund balance assignments:

	Subsequent Year's Expenditures	Specific Use	Total Assigned
General Fund	\$ 426,216	\$ 69,542	\$ 495,758
Highway Fund	165,706	501,777	667,483
Fire Protection Fund	217,480	203,824	421,304
Lighting Fund	-	21,404	21,404
Ambulance Fund	-	53,257	53,257
Garbage and Refuse Fund	-	144,627	144,627
Water Fund	3,034	591,570	594,604
Total	<u>\$ 812,436</u>	<u>\$ 1,586,001</u>	<u>\$ 2,398,437</u>

- ***Assigned to Subsequent Year’s Expenditures***—Represents available fund balance being appropriated to meet expenditure requirements in the 2023 fiscal year.
- ***Assigned to Specific Use***—Represents fund balance within the special revenue funds that is assigned for a specific purpose. The assignment’s purpose relates to each fund’s operations and represents amounts within funds that are not restricted or committed.

Unassigned fund balance represents the residual classification of the government’s General Fund surplus and Capital Projects Fund deficit.

If the Town must use funds for emergency expenditures the Board shall authorize the Supervisor to expend funds first from funds classified as nonspendable (if funds become available) then restricted funds. The use of committed and assigned funds will occur after the exhaustion of available restricted funds. Finally, if no other fund balances are available, the Town will use unassigned fund balance.

14. INTERFUND ACTIVITY

Interfund receivables and payables are short-term in nature and exist because of temporary advances or payments made on behalf of other funds. The composition of interfund balances as of December 31, 2022 is as follows:

Fund	Interfund	
	Receivables	Payables
Governmental funds:		
General Fund	\$ 211,000	\$ -
Capital Projects Fund	-	211,000
Total	<u>\$ 211,000</u>	<u>\$ 211,000</u>

The outstanding balances between funds result from payments made on behalf of other funds or temporary advances. All of these balances are expected to be collected/paid within the subsequent year.

The Town made the following transfers between funds during the year ended December 31, 2022:

Fund	Transfers out:
	General Fund
Transfers in:	
Capital Projects Fund	\$ 416,905
Total	<u>\$ 416,905</u>

The interfund transfer totaling \$416,905 represents \$349,899 ARPA funding received by the General Fund, however, related expenditures were incurred within the Capital Projects Fund as well as \$67,006 funding supplied by the general fund towards the capital projects.

15. LABOR CONTRACTS

Certain Town employees are represented by one bargaining unit, with the balance governed by Town Board rules and regulations. The International Operating Engineers Local 17 AFL-CIO bargaining unit has a negotiated contract in place through December 31, 2023.

16. COMMITMENTS

Encumbrances—Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expended in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

The Town considers encumbrances significant if they are in excess of \$10,000. Significant encumbrances as of December 31, 2022 are listed below:

Fund	Purpose	Amount Encumbered
General	Water District Consolidation Study	\$ 11,500
General	Parks Pickup Truck	56,814
Total General Fund		<u>\$ 68,314</u>
Highway	Highway Pickup Truck	\$ 56,814
Total Highway Fund		<u>\$ 56,814</u>

17. CONTINGENCIES

Litigation—The Town is involved in litigation in the ordinary course of its operations. The Town believes that its ultimate liability, if any, in connection with these matters will not have a material effect on the Town’s financial condition or results of operations.

Assessments—The Town is a defendant in litigation under Article 7 of the Real Property Tax Law of the State of New York to review tax assessments. While the Town vigorously defends assessments, the likelihood of success is on a case by case basis, and is dependent upon various factors including market values and appraised amounts. No potential amount or potential range of loss is determinable. However, management believes that level of such potential loss, if any, would be immaterial and no provisions have been made within the financial statements.

Grants—In the normal course of operations, the Town receives grant funds from various Federal and State agencies. These grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any disallowed expenditures resulting from such audits could become a liability of the governmental funds. While the amount of any expenditures which may be disallowed cannot be determined at this time, management expects any amounts to be immaterial.

18. SUBSEQUENT EVENTS

Management has evaluated subsequent events through May 1, 2023, which is the date the AUD is available for issuance, and have determined there are no subsequent events that require disclosure in conformity with the format prescribed by the Office of the State Comptroller of the State of New York.

TOWN OF BOSTON – RESOLUTION NO. 2023 -40

APPROVING JUSTICE COURT AUDIT

WHEREAS, pursuant to Uniform Justice Court Act§ 2019-a, each Town Justice must present her records and docket for an audit to be performed by the Town Board or an accountant retained by the Town Board to perform such an audit; and

WHEREAS, Town Justices Kelly A. Vacco and Debra K. Bender duly have presented their records and docket to the Town Board, and Dresher and Malecki LLP performed an audit of those records on March 21, 2023; and

WHEREAS, the Town Board has reviewed the audit report prepared by Drescher and Malecki; and

WHEREAS, the records of the Town Justices have been duly examined and the fines therein collected have been turned over to the proper officials of the Town of Boston as required by law;

NOW THEREFORE BE IT

RESOLVED, that the Town Board of the Town of Boston hereby approves the audit report prepared by Dresher and Malecki, LLP; and

IT IS FURTHER RESOLVED, that the Town Clerk forward a copy of this Resolution and the Dresher and Malecki, LLP, audit report to the Office of Court Administration.

On May 3, 2023, the question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

Appendix F – General Recordkeeping Requirements for Town and Village Justice Courts

As a general rule, board members should first gain an understanding of how the court operates, what the general rules and requirements are for financial accountability and reporting, and what types of financial records should be maintained to meet these responsibilities. Many board members, particularly newly elected members, may not be aware of these concerns.

The first step is to ASK! Ask the individuals involved (e.g., justices and court clerks). Ask other more experienced board members. Ask your local government's attorney or call us. OSC issues many publications that provide guidance on a variety of topics that will provide you with needed information. The Comptroller's Justice Court Fund Bureau issues a publication entitled *Handbook for Town and Village Justices and Court Clerks* that provides guidance as well as requirements for justice court transactions.

Court personnel are required to maintain various records and documents pertaining to the cases handled in their respective courts. They are also required to perform certain finance-related duties to account for and report all transactions.¹² Certain financial duties are the direct responsibility of each justice and, in certain circumstances, may not be delegated to other court personnel. Some key recordkeeping requirements are as follows:

Each justice is required to:

1. Maintain an official bank account in his/her name as judicial officer.
2. Issue acceptable receipt forms for all moneys collected.
3. Deposit all moneys received in his/her judicial capacity in the official bank account within 72 hours of collection, exclusive of Sundays and holidays.
4. Submit a monthly report, generally, and remittance to the Justice Court Fund within the first 10 days of the month following collection.¹³

Each court is required to:

1. Maintain individual case files containing all papers and other documents pertaining to each case.
2. Maintain an index of all cases with a unique number assigned to each case when filed.
3. Maintain a cashbook, which chronologically itemizes all receipts and disbursements.
(Note: For accountability and internal control purposes, OSC recommends that a separate cashbook be maintained for each justice).

¹² Recordkeeping requirements are generally contained in 22 NYCRR Section 214, *et seq.*

¹³ With respect to courts that participate in the Invoice Billing Program, within the first 10 days of the month following collection, each justice must electronically file their report with the Justice Court Fund and submit a remittance to the Chief Fiscal Officer, instead of the Justice Court Fund.

Appendix F –

General Recordkeeping Requirements for Town and Village Justice Courts continued

Board members should expect to find the following minimum records for receiving and disbursing moneys (either manually prepared or computerized):

1. Cash receipt records and supporting documents.
2. Cash disbursement records and supporting documents.
3. Bank statements and supporting documents.
4. Accountability worksheets detailing outstanding liabilities and cash available to meet such liabilities. These worksheets should compare net bank balances and cash on-hand to liabilities (e.g., bails and unremitted fines). Any difference between cash and liabilities should be explained. Correction of errors in accounting records, if any, should also be explained.
5. Copies of reports to applicable governmental agencies.

Appendix F –

General Recordkeeping Requirements for Town and Village Justice Courts continued

Checklist for Review of Justice Court Records

<u>Cash Receipts</u>	<u>YES</u>	<u>NO</u>
Is the cash receipts journal up-to-date?	☒	☐
Is the cash receipts journal maintained in a manner that identifies the date received, payer, and the amount of fines, fees, bail, and/or other categories of collection?	☒	☐
Are pre-numbered receipt forms issued for all collections?	☒	☐
Are duplicate receipt copies kept for court records?	☒	☐
Are receipts recorded up-to-date? <i>Last Recorded Receipt</i>	Bender - Receipt #17439 for \$150 on 12/30/2022 Vacco - Receipt #5776 for \$100 on 12/30/2022	
Are duplicate deposit slips kept for court records?	☒	☐
Do deposit amounts agree with cash receipt amounts?	☒	☐
Are deposits made timely (within 72 hours of collection, exclusive of Sundays and holidays) and recorded up-to-date? <i>Last Recorded Deposit: Date</i>	Bender - 12/30/2022 for \$935 Vacco - 12/30/2022 for \$620	
Are un-deposited cash receipts safeguarded?	☒	☐
Is the cash receipts journal totaled and summarized monthly?	☒	☐

<u>Cash Disbursements</u>	<u>YES</u>	<u>NO</u>
Is the cash disbursements journal up-to-date?	☒	☐
Is the cash disbursements journal maintained in a manner to identify individual amounts disbursed either individually or totals referenced to abstracts or payrolls?	☒	☐
Are pre-numbered checks used for all disbursements (other than petty cash)?	☒	☐
Are all checks signed by the justice?	☒	☐
Are canceled checks or check images returned with bank statements and maintained on file?	☒	☐
Are all unused checks properly controlled (blank check stock)?	☒	☐
Are checks recorded up-to-date? <i>Last Recorded Check</i>	Bender - Check 1337 on 12/20/2022 for \$11,809 Vacco - Check 1097 on 12/20/2022 for \$6,312

Comments and Conclusions

Pursuant to Uniform Justice Court Act § 2019-a, Drescher & Malecki LLP has performed the checklist for review of the Town of Boston Justice Department on behalf of the Town Board for year ended December 31, 2022. /DM 4/3/2023

Memo

To: Town of Boston

From: Drescher & Malecki LLP

Date: 4/3/2023

Re: Office of the State Comptroller Checklists for Review of Departments

Town Justice

- **Bail Account** – While reviewing year end reconciliations for the Justice Department, it was noted that the bail bank accounts and respective bail listings include funds held for periods greater than 10 years. Additionally, it was noted that one of the bail bank accounts has \$400 greater than its respective bail listing. Per review of the Office of the New York State Comptroller, Division of Local Government and School Accountability Local Government Management Guide entitled Handbook for Town and Village Justices and Court Clerks, exonerated bail over 6 years should be surrendered to the Town and unidentified money in a justice's bank account should be reported and paid into the Justice Court Fund, where it will be retained by the State until the court can properly identify the funds. Should the court later determine the person who posted the bail, they should contact the Justice Court Fund and request a refund.
- **Bank Reconciliations** – While performing testing of the bank reconciliations for the Town Justice, it was noted that bank reconciliations are not signed and dated upon completion. Further, there is no secondary review. Per review of the Office of the New York State Comptroller, Division of Local Government and School Accountability Local Government Management Guide entitled Handbook for Town and Village Justices and Court Clerks, each Justice should review their related bank reconciliation and sign and date upon completion.

TOWN OF BOSTON – RESOLUTION NO. 2023-41

**PROFESSIONAL SERVICES AGREEMENT
FOR LENGTH OF SERVICE AWARD PROGRAM (LOSAP) POINT AUDIT**

WHEREAS, the Town of Boston sponsors and funds a Length of Service Award Program (“LOSAP”) to incentivize and reward volunteer members of the fire companies that serve the Town; and

WHEREAS, the LOSAP program currently is funded at a level below what is recommended by the program’s actuaries, and the Town is reviewing its options to maintain a viable program, including potential modifications to the program; and

WHEREAS, the LOSAP actuaries recommend that in connection with reviewing the program, an audit of the service points awarded pursuant to the program should be completed; and

WHEREAS, the Town has obtained a proposal from the Pinsky Law Group, PLLC, to perform the required scope of work for a total fee of \$4,800;

NOW THEREFORE BE IT

RESOLVED, that Town Board of the Town of Boston hereby authorizes the Town Supervisor to accept the proposed retainer agreement from Pinsky Law Group, PLLC, dated April 11, 2023, to perform an audit of the LOSAP service awards points for a flat fee of \$4,800.

On May 3, 2023, the question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

Re: Flat Fee Retainer: Service Awards Points Review

Dear Town Supervisor:

This letter will summarize the proposed terms of our firm's assistance of your organization, on a flat fee basis, including the scope of services we will be providing, the agreed upon fee, and billing arrangements.

Scope of Engagement. We will assist the organization with a Service Awards Points Review to review one year of LOSAP point distribution.

Fee Arrangement. Our fee will be billed at the **flat rate of \$4,800.00**. Expenses, if any, are not included. **Fifty percent of the fee is required upon execution of this agreement, with the remaining fifty percent due upon completion of services.**

Should additional hourly services be requested or required, those are billed at \$290/hour in six-minute intervals.

Team System. The Pinsky Law Group, PLLC works in a team atmosphere. Therefore, it is possible that either Mr. Pinsky, an associate or a paralegal will perform work on one or more occasions.

Communication with Attorneys. We have experienced situations in which officers, members and employees of a client communicate with us on a matter. We cannot be expected to know which individuals are authorized and which are not authorized to communicate with us. We place the responsibility on you to caution your personnel from communicating with the attorneys without your authorization, as such fees will be billable to you as a client. Although we will try our best

to limit our communications with your authorized personnel, it is impossible for us to track all of our clients' authorized personnel. Thus, you must control your members'/employees' access to your attorneys and must agree to pay for the time incurred by us due to your personnel.

E-Mail Communication. You are warned that while email communication may be common, E-mails are not a protected means of communication between the attorney and client. Emails which are accessible to another person who is not a client are potentially discoverable. For instance, employer provided email addresses may not be protected. Pinsky Law Group, PLLC cannot possibly know which email addresses used by the client are accessible by other parties. You are responsible for ensuring that you do not email your attorney from an unprotected email address.

Term. The term of this Agreement shall be one year and may be renewed upon an oral agreement of both parties.

Termination of Engagement. Either of us may terminate the engagement at any time for any reason by written notice, subject, on our part, to the rules of professional responsibility. No such termination, however, will relieve you of the obligation to pay the legal fees owed to us for services performed and other charges owed to us through the date of termination. After the completion of our services on your behalf, changes may occur in applicable laws or regulations that could have an impact upon your future rights and liabilities. Unless you engage us after completion of the Project to provide additional advice on issues arising from the Project, the firm has no continuing obligation to advise you with respect to future legal developments.

Conclusion of Representation; Disposition of Client Documents. Following termination of our attorney/client relationship, any otherwise nonpublic information you have supplied to us that is retained by us will be kept confidential in accordance with applicable rules of professional conduct. At your request, we will return your papers and property promptly after receipt of payment for any outstanding fees and costs. Our own files pertaining to the matter will be retained by the firm. These firm files include, for example, firm administrative records; internal lawyers' work product such as drafts, notes, internal memoranda; and legal and factual research, including investigative reports, prepared by or for the internal use of lawyers. We will retain all remaining documents for a certain period of time, but we reserve the right for various reasons including the minimization of unnecessary storage expenses, to destroy or otherwise dispose of them within a reasonable time after the termination of the engagement.

Record Retention. Client files will be retained for a period of seven (7) years. Non-original documents may be scanned into our system with the paper file destroyed, before that date. Original documents such as contracts, signed papers, and other such files will be maintained for seven years, and then potentially destroyed before they are scanned. The client should not have the law firm maintain original documents. You are obligated to hold your original files, such as contracts, deeds, and abstracts of title.

Client Responsibilities. You agree to cooperate fully with us and to promptly provide all information known or available to you relevant to our representation. You agree to cooperate with us in all aspects of the representation. The failure to cooperate with us may result in the

inability of our attorneys to effectively represent you. Failing to return calls or provide us requested information may result in the inability of our attorneys to represent you. You also agree to pay in a timely manner our statements for services and expenses as provided above.

Organization as a client: We will be retained to represent the organization and not any individual in the organization. Our ethical duty requires us to provide our allegiance to the organization and not to any individual. Should any conflict arise between any commissioner, member, director, officer and the organization, the law firm at all times must represent the interests of the organization.

We look forward to working with you!

Very truly yours,

PINSKY LAW GROUP, PLLC

Title: _____

TOWN OF BOSTON – RESOLUTION NO. 2023-42

ADOPTING REVISED FEE SCHEDULE

WHEREAS, the Town of Boston has not made significant additions to its schedule of fees in several years; and

WHEREAS, the Town Code Enforcement Officer and Town Planning Consultant has reviewed the Town’s fees and has recommended the adoption of a revised schedule of certain fees in order better to reflect the Town’s costs in processing certain applications relating to building permits and to bring those fees into line with fees charged by other municipalities;

NOW, THEREFORE, BE IT

RESOLVED, that the Town Board of the Town of Boston hereby adopts the revised fees recommended by the Town Code Enforcement Officer and Town Planning Consultant on the attached report, effective May 15, 2023, all other fees to remain as previously established.

On May 3, 2023, the question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

TOWN OF BOSTON – RESOLUTION NO. 2023 - 43

ADOPTION OF UPDATED HARASSMENT AND DISCRIMINATION POLICY

At a Regular Meeting of the Boston Town Board Erie County, New York, on the 3rd day of May, 2023 at 7:30 pm Eastern Prevailing Time there were:

Present: Supervisor Jason A. Keding, Councilman Michael Cartechine, Councilwoman Jennifer Lucachik, Councilwoman Kelly Martin and Councilwoman Kathleen Selby

NOW THEREFORE BE IT RESOLVED, that the Town of Boston does hereby adopt the attached Harassment & Discrimination policies and procedures updated in April of 2023:

On May 3rd, 2023, the question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

	Yes	No	Abstain	Absent
Councilmember Cartechine	[]	[]	[]	[]

Councilmember Martin	[]	[]	[]	[]
Councilmember Selby	[]	[]	[]	[]
Supervisor Keding	[]	[]	[]	[]

Sandra L. Quinlan, Town Clerk

Purpose and Goals

Town of Boston is committed to maintaining a workplace free from harassment and discrimination. Sexual harassment is a form of workplace discrimination that subjects an employee to inferior conditions of employment due to their gender, gender identity, gender expression (perceived or actual), and/or sexual orientation. Sexual harassment is often viewed simply as a form of gender-based discrimination, but Town of Boston recognizes that discrimination can be related to or affected by other identities beyond gender. Under the New York State Human Rights Law, it is illegal to discriminate based on sex, sexual orientation, gender identity or expression, age, race, creed, color, national origin, military status, disability, pre-disposing genetic characteristics, familial status, marital status, criminal history, or status as a victim of domestic violence. Our different identities impact our understanding of the world and how others perceive us. For example, an individual's race, ability, or immigration status may impact their experience with gender discrimination in the workplace. While this policy is focused on sexual harassment and gender discrimination, the methods for reporting and investigating discrimination based on other protected identities are the same. The purpose of this policy is to teach employees to recognize discrimination, including discrimination due to an individual's intersecting identities, and provide the tools to take action when it occurs. All employees, managers, and supervisors are required to work in a manner designed to prevent sexual harassment and discrimination in the workplace. This policy is one component of Town of Boston's commitment to a discrimination-free work environment.

Goals of this Policy:

Sexual harassment and discrimination are against the law. After reading this policy, employees will understand their right to a workplace free from harassment. Employees will also learn what harassment and discrimination look like, what actions they can take to prevent and report harassment, and how they are protected from retaliation after taking action. The policy will also explain the investigation process into any claims of harassment. Employees are encouraged to report sexual harassment or discrimination by filing a complaint internally with Town of Boston. Employees can also file a complaint with a government agency or in court under federal, state, or local antidiscrimination laws. To file an employment complaint with the New York State Division of Human Rights, please visit <https://dhr.ny.gov/complaint>. To file a complaint with the United States Equal Employment Opportunity Commission, please visit <https://www.eeoc.gov/filing-charge-discrimination>.

Sexual Harassment and Discrimination Prevention Policy:

1. Town of Boston's policy applies to all employees, applicants for employment, and interns, whether paid or unpaid. The policy also applies to additional covered individuals. It applies to anyone who is (or is employed by) a contractor, subcontractor, vendor, consultant, or anyone providing services in our workplace. These individuals include persons commonly referred to as independent contractors, gig workers, and temporary workers. Also included are persons providing equipment repair, cleaning services, or any other services through a contract with Town of Boston. For the remainder of this policy, we will use the term "covered individual" to refer to these individuals who are not direct employees of the company.
2. Sexual harassment is unacceptable. Any employee or covered individual who engages in sexual harassment, discrimination, or retaliation will be subject to action, including appropriate discipline for employees. In New York, harassment does not need to be severe or pervasive to be illegal. Employees and covered individuals should not feel discouraged from reporting harassment because they do not believe it is bad enough, or conversely because they do not want to see a colleague fired over less severe behavior. Just as harassment can happen in different degrees, potential discipline for engaging in sexual harassment will depend on the degree of harassment and might include education and counseling. It may lead to suspension or termination when appropriate.
3. Retaliation is prohibited. Any employee or covered individual that reports an incident of sexual harassment or discrimination, provides information, or otherwise assists in any investigation of a sexual harassment or discrimination complaint is protected from retaliation. No one should fear reporting sexual harassment if they believe it has occurred. So long as a person reasonably believes that they have witnessed or experienced such behavior, they are protected from retaliation. Any employee of Town of Boston who retaliates against anyone involved in a sexual harassment or discrimination investigation will face disciplinary action, up to and including termination. All employees and covered individuals working in the workplace who believe they have been subject to such retaliation should inform a supervisor, manager, or the Supervisor's Office. All employees and covered individuals who believe they have been a target of such retaliation may also seek relief from government agencies, as explained below in the section on [Legal Protections](#).
4. Discrimination of any kind, including sexual harassment, is a violation of our policies, is unlawful, and may subject Town of Boston to liability for the harm experienced by targets of discrimination. Harassers may also be individually subject to liability and employers or supervisors who fail to report or act on harassment may be liable for aiding and abetting such behavior. Employees at every level who engage in harassment or discrimination, including managers and supervisors who engage in harassment or discrimination or who allow such behavior to continue, will be penalized for such misconduct.
5. Town of Boston will conduct a prompt and thorough investigation that is fair to all parties. An investigation will happen whenever management receives a complaint about discrimination or sexual harassment, or when it otherwise knows of possible discrimination or sexual harassment occurring. Town of Boston will keep the investigation confidential to the extent possible. If an investigation ends with the finding that discrimination or sexual harassment occurred, Town of

Boston will act as required. In addition to any required discipline, Town of Boston will also take steps to ensure a safe work environment for the employee(s) who experienced the discrimination or harassment. All employees, including managers and supervisors, are required to cooperate with any internal investigation of discrimination or sexual harassment.

6. All employees and covered individuals are encouraged to report any harassment or behaviors that violate this policy. All employees will have access to a complaint form to report harassment and file complaints. Use of this form is not required. For anyone who would rather make a complaint verbally, or by email, these complaints will be treated with equal priority. An employee or covered individual who prefers not to report harassment to their manager or employer may instead report harassment to the New York State Division of Human Rights and/or the United States Equal Employment Opportunity Commission. Complaints may be made to both the employer and a government agency.

Managers and supervisors are **required** to report any complaint that they receive, or any harassment that they observe or become aware of, to the Supervisor's Office.

7. This policy applies to all employees and covered individuals, such as contractors, subcontractors, vendors, consultants, or anyone providing services in the workplace, and all must follow and uphold this policy. This policy must be provided to all employees in person or digitally through email upon hiring and will be posted prominently in all work locations. For those offices operating remotely, in addition to sending the policy through email, it will also be available on the organization's shared network.

What Is Sexual Harassment?

Sexual harassment is a form of gender-based discrimination that is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of sex, sexual orientation, self-identified or perceived sex, gender expression, gender identity, and the status of being transgender. Sexual harassment is not limited to sexual contact, touching, or expressions of a sexually suggestive nature. Sexual harassment includes all forms of gender discrimination including gender role stereotyping and treating employees differently because of their gender.

Understanding gender diversity is essential to recognizing sexual harassment because discrimination based on sex stereotypes, gender expression and perceived identity are all forms of sexual harassment. The gender spectrum is nuanced, but the three most common ways people identify are cisgender, transgender, and non-binary. A cisgender person is someone whose gender aligns with the sex they were assigned at birth. Generally, this gender will align with the binary of male or female. A transgender person is someone whose gender is different than the sex they were assigned at birth. A non-binary person does not identify exclusively as a man or a woman. They might identify as both, somewhere in between, or completely outside the gender binary. Some may identify as transgender, but not all do. Respecting an individual's gender identity is a necessary first step in establishing a safe workplace.

Sexual harassment is unlawful when it subjects an individual to inferior terms, conditions, or privileges of employment. Harassment does not need to be severe or pervasive to be illegal. It can be any harassing behavior that rises above petty slights or trivial inconveniences. Every instance of harassment is unique to

those experiencing it, and there is no single boundary between petty slights and harassing behavior. However, the Human Rights Law specifies that whether harassing conduct is considered petty or trivial is to be viewed from the standpoint of a reasonable victim of discrimination with the same protected characteristics. Generally, any behavior in which an employee or covered individual is treated worse because of their gender (perceived or actual), sexual orientation, or gender expression is considered a violation of Town of Boston's policy. The intent of the behavior, for example, making a joke, does not neutralize a harassment claim. Not intending to harass is not a defense. The impact of the behavior on a person is what counts. Sexual harassment includes any unwelcome conduct which is either directed at an individual because of that individual's gender identity or expression (perceived or actual), or is of a sexual nature when:

- The purpose or effect of this behavior unreasonably interferes with an individual's work performance or creates an intimidating, hostile or offensive work environment. The impacted person does not need to be the intended target of the sexual harassment;
- Employment depends implicitly or explicitly on accepting such unwelcome behavior; or
- Decisions regarding an individual's employment are based on an individual's acceptance to or rejection of such behavior. Such decisions can include what shifts and how many hours an employee might work, project assignments, as well as salary and promotion decisions.

There are two main types of sexual harassment:

- Behaviors that contribute to a **hostile work environment** include, but are not limited to, words, signs, jokes, pranks, intimidation, or physical violence which are of a sexual nature, or which are directed at an individual because of that individual's sex, gender identity, or gender expression. Sexual harassment also consists of any unwanted verbal or physical advances, sexually explicit derogatory, or discriminatory statements which an employee finds offensive or objectionable, causes an employee discomfort or humiliation, or interferes with the employee's job performance.
- Sexual harassment also occurs when a person in authority tries to trade job benefits for sexual favors. This can include hiring, promotion, continued employment or any other terms, conditions, or privileges of employment. This is also called **quid pro quo** harassment.

Any employee or covered individual who feels harassed is encouraged to report the behavior so that any violation of this policy can be corrected promptly. Any harassing conduct, even a single incident, can be discrimination and is covered by this policy.

Examples of Sexual Harassment

The following describes some of the types of acts that may be unlawful sexual harassment and that are strictly prohibited. **This list is just a sample of behaviors and should not be considered exhaustive.** Any employee who believes they have experienced sexual harassment, even if it does not appear on this list, should feel encouraged to report it:

- Physical acts of a sexual nature, such as:
 - Touching, pinching, patting, kissing, hugging, grabbing, brushing against another employee's body, or poking another employee's body; or

- Rape, sexual battery, molestation, or attempts to commit these assaults, which may be considered criminal conduct outside the scope of this policy (please contact local law enforcement if you wish to pursue criminal charges).
- Unwanted sexual comments, advances, or propositions, such as:
 - Requests for sexual favors accompanied by implied or overt threats concerning the target's job performance evaluation, a promotion, or other job benefits;
 - This can include sexual advances/pressure placed on a service industry employee by customers or clients, especially those industries where hospitality and tips are essential to the customer/employee relationship;
 - Subtle or obvious pressure for unwelcome sexual activities; or
 - Repeated requests for dates or romantic gestures, including gift-giving.
- Sexually oriented gestures, noises, remarks or jokes, or questions and comments about a person's sexuality, sexual experience, or romantic history which create a hostile work environment. This is not limited to interactions in person. Remarks made over virtual platforms and in messaging apps when employees are working remotely can create a similarly hostile work environment.
- Sex stereotyping, which occurs when someone's conduct or personality traits are judged based on other people's ideas or perceptions about how individuals of a particular sex should act or look:
 - Remarks regarding an employee's gender expression, such as wearing a garment typically associated with a different gender identity; or
 - Asking employees to take on traditionally gendered roles, such as asking a woman to serve meeting refreshments when it is not part of, or appropriate to, her job duties.
- Sexual or discriminatory displays or publications anywhere in the workplace, such as:
 - Displaying pictures, posters, calendars, graffiti, objects, promotional material, reading materials, or other materials that are sexually demeaning or pornographic. This includes such sexual displays on workplace computers or cell phones and sharing such displays while in the workplace;
 - This also extends to the virtual or remote workspace and can include having such materials visible in the background of one's home during a virtual meeting.
- Hostile actions taken against an individual because of that individual's sex, sexual orientation, gender identity, or gender expression, such as:
 - Interfering with, destroying, or damaging a person's workstation, tools or equipment, or otherwise interfering with the individual's ability to perform the job;
 - Sabotaging an individual's work;
 - Bullying, yelling, or name-calling;
 - Intentional misuse of an individual's preferred pronouns; or
 - Creating different expectations for individuals based on their perceived identities:
 - Dress codes that place more emphasis on women's attire;
 - Leaving parents/caregivers out of meetings.

Who Can be a Target of Sexual Harassment?

Sexual harassment can occur between any individuals, regardless of their sex or gender. Harassment does not have to be between members of the opposite sex or gender. New York Law protects employees and all covered individuals described earlier in the policy. **Harassers can be anyone in the workplace.** A supervisor, a supervisee, or a coworker can all be harassers. Anyone else in the workplace can also be harassers including an independent contractor, contract worker, vendor, client, customer, patient, constituent, or visitor.

Sexual harassment does not happen in a vacuum and discrimination experienced by an employee can be impacted by biases and identities beyond an individual's gender. For example:

- Placing different demands or expectations on black women employees than white women employees can be both racial and gender discrimination;
- An individual's immigration status may lead to perceptions of vulnerability and increased concerns around illegal retaliation for reporting sexual harassment; or
- Past experiences as a survivor of domestic or sexual violence may lead an individual to feel re-traumatized by someone's behaviors in the workplace.

Individuals bring personal history with them to the workplace that might impact how they interact with certain behavior. It is especially important for all employees to be aware of how words or actions might impact someone with a different experience than their own in the interest of creating a safe and equitable workplace.

Where Can Sexual Harassment Occur?

Unlawful sexual harassment is not limited to the physical workplace itself. It can occur while employees are traveling for business or at employer or industry sponsored events or parties. Calls, texts, emails, and social media usage by employees or covered individuals can constitute unlawful workplace harassment, even if they occur away from the workplace premises, on personal devices, or during non-work hours.

Sexual harassment can occur when employees are working remotely from home as well. Any behaviors outlined above that leave an employee feeling uncomfortable, humiliated, or unable to meet their job requirements constitute harassment even if the employee or covered individual is at home when the harassment occurs. Harassment can happen on virtual meeting platforms, in messaging apps, and after working hours between personal cell phones.

Retaliation

Retaliation is unlawful and is any action by an employer or supervisor that punishes an individual upon learning of a harassment claim, that seeks to discourage a worker or covered individual from making a formal complaint or supporting a sexual harassment or discrimination claim, or that punishes those who have come forward. These actions need not be job-related or occur in the workplace to constitute unlawful retaliation. For example, threats of physical violence outside of work hours or disparaging someone on social media would be covered as retaliation under this policy.

Examples of retaliation may include, but are not limited to:

- Demotion, termination, denying accommodations, reduced hours, or the assignment of less desirable shifts;
- Publicly releasing personnel files;
- Refusing to provide a reference or providing an unwarranted negative reference;
- Labeling an employee as "difficult" and excluding them from projects to avoid "drama";
- Undermining an individual's immigration status; or

- Reducing work responsibilities, passing over for a promotion, or moving an individual's desk to a less desirable office location.

Such retaliation is unlawful under federal, state, and (where applicable) local law. The New York State Human Rights Law protects any individual who has engaged in "protected activity." Protected activity occurs when a person has:

- Made a complaint of sexual harassment or discrimination, either internally or with any government agency;
- Testified or assisted in a proceeding involving sexual harassment or discrimination under the Human Rights Law or any other anti-discrimination law;
- Opposed sexual harassment or discrimination by making a verbal or informal complaint to management, or by simply informing a supervisor or manager of suspected harassment;
- Reported that another employee has been sexually harassed or discriminated against; or
- Encouraged a fellow employee to report harassment.

Even if the alleged harassment does not turn out to rise to the level of a violation of law, the individual is protected from retaliation if the person had a good faith belief that the practices were unlawful. However, the retaliation provision is not intended to protect persons making intentionally false charges of harassment.

Reporting Sexual Harassment

Everyone must work toward preventing sexual harassment, but leadership matters. Supervisors and managers have a special responsibility to make sure employees feel safe at work and that workplaces are free from harassment and discrimination. Any employee or covered individual is encouraged to report harassing or discriminatory behavior to a supervisor, manager or the Supervisor's Office. Anyone who witnesses or becomes aware of potential instances of sexual harassment should report such behavior to a supervisor, manager, or the Supervisor's Office.

Reports of sexual harassment may be made verbally or in writing. A written complaint form is attached to this policy if an employee would like to use it, but the complaint form is not required. Employees who are reporting sexual harassment on behalf of other employees may use the complaint form and should note that it is on another employee's behalf. A verbal or otherwise written complaint (such as an email) on behalf of oneself or another employee is also acceptable.

Employees and covered individuals who believe they have been a target of sexual harassment may at any time seek assistance in additional available forums, as explained below in the section on [Legal Protections](#).

Supervisory Responsibilities

Supervisors and managers have a responsibility to prevent sexual harassment and discrimination. All supervisors and managers who receive a complaint or information about suspected sexual harassment, observe what may be sexually harassing or discriminatory behavior, or for any reason suspect that sexual harassment or discrimination is occurring, are required to report such suspected sexual harassment to the

Supervisor's Office. Managers and supervisors should not be passive and wait for an employee to make a claim of harassment. If they observe such behavior, they must act.

Supervisors and managers can be disciplined if they engage in sexually harassing or discriminatory behavior themselves. Supervisors and managers can also be disciplined for failing to report suspected sexual harassment or allowing sexual harassment to continue after they know about it.

Supervisors and managers will also be subject to discipline for engaging in any retaliation.

While supervisors and managers have a responsibility to report harassment and discrimination, supervisors and managers must be mindful of the impact that harassment and a subsequent investigation has on victims. Being identified as a possible victim of harassment and questioned about harassment and discrimination can be intimidating, uncomfortable and re-traumatizing for individuals. Supervisors and managers must accommodate the needs of individuals who have experienced harassment to ensure the workplace is safe, supportive, and free from retaliation for them during and after any investigation.

Bystander Intervention

Any employee witnessing harassment as a bystander is encouraged to report it. A supervisor or manager that is a bystander to harassment is **required** to report it. There are five standard methods of bystander intervention that can be used when anyone witnesses harassment or discrimination and wants to help.

1. A bystander can interrupt the harassment by engaging with the individual being harassed and distracting them from the harassing behavior;
2. A bystander who feels unsafe interrupting on their own can ask a third party to help intervene in the harassment;
3. A bystander can record or take notes on the harassment incident to benefit a future investigation;
4. A bystander might check in with the person who has been harassed after the incident, see how they are feeling and let them know the behavior was not ok; and
5. If a bystander feels safe, they can confront the harassers and name the behavior as inappropriate. When confronting harassment, physically assaulting an individual is never an appropriate response.

Though not exhaustive, and dependent on the circumstances, the guidelines above can serve as a brief guide of how to react when witnessing harassment in the workplace. Any employee witnessing harassment as a bystander is encouraged to report it. A supervisor or manager that is a bystander to harassment is required to report it.

Complaints and Investigations of Sexual Harassment

All complaints or information about sexual harassment will be investigated, whether that information was reported in verbal or written form. An investigation of any complaint, information, or knowledge of suspected sexual harassment will be prompt, thorough, and started and completed as soon as possible.

The investigation will be kept confidential to the extent possible. All individuals involved, including those making a harassment claim, witnesses, and alleged harassers deserve a fair and impartial investigation.

Any employee may be required to cooperate as needed in an investigation of suspected sexual harassment. Town of Boston will take disciplinary action against anyone engaging in retaliation against employees who file complaints, support another's complaint, or participate in harassment investigations.

Town of Boston recognizes that participating in a harassment investigation can be uncomfortable and has the potential to retraumatize an employee. Those receiving claims and leading investigations will handle complaints and questions with sensitivity toward those participating.

While the process may vary from case to case, investigations will be done in accordance with the following steps. Upon receipt of a complaint, the Supervisor's Office:

1. Will conduct a prompt review of the allegations, assess the appropriate scope of the investigation, and take any interim actions (for example, instructing the individual(s) about whom the complaint was made to refrain from communications with the individual(s) who reported the harassment), as appropriate. If complaint is verbal, request that the individual completes the complaint form in writing. If the person reporting prefers not to fill out the form, the Supervisor's Office will prepare a complaint form or equivalent documentation based on the verbal reporting;
2. Will take steps to obtain, review, and preserve documents sufficient to assess the allegations, including documents, emails or phone records that may be relevant to the investigation. The Supervisor's Office will consider and implement appropriate document request, review, and preservation measures, including for electronic communications;
3. Will seek to interview all parties involved, including any relevant witnesses;
4. Will create a written documentation of the investigation (such as a letter, memo or email), which contains the following:
 - a. A list of all documents reviewed, along with a detailed summary of relevant documents;
 - b. A list of names of those interviewed, along with a detailed summary of their statements;
 - c. A timeline of events;
 - d. A summary of any prior relevant incidents disclosed in the investigation, reported or unreported; and
 - e. The basis for the decision and final resolution of the complaint, together with any corrective action(s).
5. Will keep the written documentation and associated documents in a secure and confidential location;
6. Will promptly notify the individual(s) who reported the harassment and the individual(s) about whom the complaint was made that the investigation has been completed and implement any corrective actions identified in the written document; and

7. Will inform the individual(s) who reported of the right to file a complaint or charge externally as outlined in the next section.

Legal Protections and External Remedies

Sexual harassment is not only prohibited by Town of Boston, but it is also prohibited by state, federal, and, where applicable, local law.

The internal process outlined in the policy above is one way for employees to report sexual harassment. Employees and covered individuals may also choose to pursue legal remedies with the following governmental entities. While a private attorney is not required to file a complaint with a governmental agency, you may also seek the legal advice of an attorney.

New York State Division of Human Rights:

The New York State Human Rights Law (HRL), N.Y. Executive Law, art. 15, § 290 *et seq.*, applies to all employers in New York State and protects employees and covered individuals, regardless of immigration status. A complaint alleging violation of the Human Rights Law may be filed either with the New York State Division of Human Rights (DHR) or in New York State Supreme Court.

Complaints of sexual harassment filed with DHR may be submitted any time **within three years** of the harassment. If an individual does not file a complaint with DHR, they can bring a lawsuit directly in state court under the Human Rights Law, **within three years** of the alleged sexual harassment. An individual may not file with DHR if they have already filed a HRL complaint in state court.

Complaining internally to Town of Boston does not extend your time to file with DHR or in court. The three years are counted from the date of the most recent incident of harassment.

You do not need an attorney to file a complaint with DHR, and there is no cost to file with DHR.

DHR will investigate your complaint and determine whether there is probable cause to believe that sexual harassment has occurred. Probable cause cases receive a public hearing before an administrative law judge. If sexual harassment is found at the hearing, DHR has the power to award relief. Relief varies but it may include requiring your employer to take action to stop the harassment, or repair the damage caused by the harassment, including paying of monetary damages, punitive damages, attorney's fees, and civil fines.

DHR's main office contact information is: NYS Division of Human Rights, One Fordham Plaza, Fourth Floor, Bronx, New York 10458. You may call (718) 741-8400 or visit: www.dhr.ny.gov.

Go to dhr.ny.gov/complaint for more information about filing a complaint with DHR. The website has a digital complaint process that can be completed on your computer or mobile device from start to finish. The website has a complaint form that can be downloaded, filled out, and mailed to DHR as well as a form that can be submitted online. The website also contains contact information for DHR's regional offices across New York State.

Call the DHR sexual harassment hotline at **1(800) HARASS3** for more information about filing a sexual harassment complaint. This hotline can also provide you with a referral to a volunteer attorney experienced in sexual harassment matters who can provide you with limited free assistance and counsel over the phone. Please note that you may also email a complaint form to complaints@dhr.ny.gov or fax it to 718-741-8322.

The United States Equal Employment Opportunity Commission:

The United States Equal Employment Opportunity Commission (EEOC) enforces federal anti-discrimination laws, including Title VII of the 1964 federal Civil Rights Act, 42 U.S.C. § 2000e *et seq.* An individual can file a complaint with the EEOC anytime within 300 days from the most recent incident of harassment. There is no cost to file a complaint with the EEOC. The EEOC will investigate the complaint and determine whether there is reasonable cause to believe that discrimination has occurred. If the EEOC determines that the law may have been violated, the EEOC will try to reach a voluntary settlement with the employer. If the EEOC cannot reach a settlement, the EEOC (or the Department of Justice in certain cases) will decide whether to file a lawsuit. The EEOC will issue a Notice of Right to Sue permitting workers to file a lawsuit in federal court if the EEOC closes the charge, is unable to determine if federal employment discrimination laws may have been violated, or believes that unlawful discrimination occurred by does not file a lawsuit.

Individuals may obtain relief in mediation, settlement or conciliation. In addition, federal courts may award remedies if discrimination is found to have occurred. In general, private employers must have at least 15 employees to come within the jurisdiction of the EEOC.

An employee alleging discrimination at work can file a “Charge of Discrimination.” The EEOC has district, area, and field offices where complaints can be filed. Contact the EEOC by calling 1-800-669-4000 (TTY: 1-800-669-6820), visiting their website at www.eeoc.gov or via email at info@eeoc.gov.

If an individual filed an administrative complaint with the New York State Division of Human Rights, DHR will automatically file the complaint with the EEOC to preserve the right to proceed in federal court.

Local Protections

Many localities enforce laws protecting individuals from sexual harassment and discrimination. An individual should contact the county, city or town in which they live to find out if such a law exists. For example, employees who work in New York City may file complaints of sexual harassment or discrimination with the New York City Commission on Human Rights. Contact their main office at Law Enforcement Bureau of the NYC Commission on Human Rights, 22 Reade Street, 1st Floor, New York, New York; call 311 or (212) 306-7450; or visit www.nyc.gov/html/cchr/html/home/home.shtml.

Contact the Local Police Department

If the harassment involves unwanted physical touching, coerced physical confinement, or coerced sex acts, the conduct may constitute a crime. Those wishing to pursue criminal charges are encouraged to contact their local police department.

Conclusion

The policy outlined above is aimed at providing employees at Town of Boston and covered individuals an understanding of their right to a discrimination and harassment free workplace. All employees should feel safe at work. Though the focus of this policy is on sexual harassment and gender discrimination, the New York State Human Rights law protects against discrimination in several protected classes including sex, sexual orientation, gender identity or expression, age, race, creed, color, national origin, military status, disability, pre-disposing genetic characteristics, familial status, marital status, criminal history, or domestic violence survivor status. The prevention policies outlined above should be considered applicable to all protected classes.

COMPLAINT FORM FOR REPORTING SEXUAL HARASSMENT

If you believe that you have been subjected to sexual harassment, you are encouraged to complete this form and submit it to your manager/supervisor or the Supervisor's Office. You will not be retaliated against for filing a complaint.

If you are more comfortable reporting verbally or in another manner, your employer should complete this form, provide you with a copy and follow its sexual harassment prevention policy by investigating the claims as outlined at the end of this form. Additionally, you may contact the New York State Division of Human Rights hotline at 1(800) HARASS3 to submit a claim/connect with a pro-bono attorney on sexual harassment issues, email a complaint form to complaints@dhr.ny.gov, or fax it to 718-741-8322.

TOWN OF BOSTON – RESOLUTION NO. 2023 - 44

PURCHASE OF GENERATOR FOR PARKS/EMS BUILDING

WHEREAS, the Town of Boston owns a secondary building located at 8500 Boston State Rd, which houses the Town’s parks department and the Boston Emergency Squad; and

WHEREAS, the Town has identified a need to add backup power to all town-owned buildings to facilitate continued services in the event of a power outage and protect town owned structures and electronic equipment from potential damage resulting from loss of power to building systems; and

WHEREAS, the Boston Emergency Squad has a contract with the town that states that the Town will provide “an adequate structure with garage for Squad operations and training including the housing of ambulances and equipment”; and

WHEREAS, the Emergency Squad has brought concerns to the Town Board about the delay in their services to residents when the power is out, and the bay doors need to be manually opened and closed; and

WHEREAS, quotes for the necessary equipment and services were solicited from three companies and quotes in the following amounts were obtained:

Company	Quote
GenTech	\$10,272.85
Holland Propane	\$11,680.00
E.S.S.I.	Bid Never Received

NOW THEREFORE BE IT

RESOLVED, that the Town Board of the Town of Boston hereby authorizes the Town Supervisor to contract with GenTech in the amount of \$10,272.85 for the installation of a generator at the Parks/EMS building.

On May 3rd, 2023, the question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

Estimate

Date	Estimate #
3/16/2023	4011

Estimate For:
Town of Boston 8500 Boston State Road Boston, NY 14025

All estimates are valid for 30 days after initial consultation. Any quote outside of 30 days will be re-estimated as prices are subject to change.

Item	Description
	NOTE: Gas meter and regulator would need to be upgraded to accommodate this generator. This is an additional cost not included in our quote. The town would have to make the request for the upgrade through National Fuel.
G0070433 22KW/WH	Generac 22kw Air-Cooled Home Standby Generator with 200amp whole panel transfer switch.
Composite GENPAD	Generac's proprietary lightweight high-strength composite GENPAD™ base for generator. Composed of industrial high strength, fiberglass reinforced, thermoset sheet molding compound specifically designed to ensure the weight of a Generac generator.
Installation	Remove existing 200amp service disconnect. Install new Generac 200 amp service rated transfer switch. Provide composite GENPAD™ base for generator to be located on rear of building near gas meter, between building and side walk. Provide and install black iron gas piping sized for generator, with fittings and valve. Gas piping to be supported at generator. Outside gas piping to be painted with Rustolium oil based grey paint. Provide and install conductors, and control wiring between the generator and new transfer switch. Wiring to be in electrical conduit. Install required labeling. Install battery, startup and testing of unit.
Update Ground Rods	As per National Electric Code we will make sure the grounding is up to date and current.
Battery 6526R	Battery 6526R
Engine Oil Heater	Generac Engine Oil Heater for cold weather protection under 32 degrees.
Building Permit & Inspection	Town Building Permit and Electrical Inspection. Gen-Tech will file and arrange all necessary permits and inspections.
Generator Warranty	All Generac generators come with a standard 5 year warranty, under current promotion, this generator would receive free upgrade to 10 year warranty if generator is installed before July 1st, 2023. NOTE: Building must comply to all current smoke and CO detector requirements. If upgrades are needed, these upgrades would be at additional cost and in most cases handles by the towns contractor for fire alarm systems.

By code there must be a hardwired smoke and CO detector in the basement. There must also be a CO detector in any area with a heating appliance and on each level of the home. All bedrooms, hallways and common areas must also have smoke detectors. If you need any detectors Gen-Tech can provide and install for an additional cost.

If you agree to the terms and pricing of this estimate, please sign and return a copy to our office via e-mail at info@gentechpower.com or regular mail to:
61 Innsbruck Drive, Suite C, Buffalo, NY 14227

Hi Allison,

This email is regarding the "Preventative Maintenance" Agreement for the HVAC equipment we current service at your facilities. The current Agreement will expire on 03/31/23.

The 2023 Agreement cost will remain **\$3,180.00** and invoiced semi-annually. For service outside the scope of the agreement, you will continue to receive priority service response, labor, and parts discounts. Please reply to this email with any questions and to acknowledge renewal of Agreement. If you do require a Formal Agreement for your records let me know.

We look forward to continuing to provide quality service to your facilities. If you should have any questions, please do not hesitate to call.

Thank you

Corey Donoghue | Service Consultant

The service agreement price is three thousand two hundred (\$3,200.00) per year, payable in equal semi-annual payment of \$1,600.00.

The first invoice is produced on the day coverage begins, 05-01-2023. Coverage shall continue for 1 year.

The schedules attached to the Service Agreement constitute the entire Agreement between the Contractor and the Customer. The Service Agreement remains the property of Contractor and is provided for the Customer's use only. Any waiver, change or modification of any terms or conditions shall not be binding on Contractor unless made in writing and signed by authorized management of Contractor. Danforth reserves its right for an adjustment in contract time, price, or both, due to changing conditions relating to COVID-19, or any pandemic, epidemic, or disease outbreak.

Attachment A

Professional Management: This includes our administration of your custom-designed maintenance program. You will receive detailed reporting from our service technicians following each visit. You stay well informed without having to be directly involved in the upkeep of your equipment investment.

Features

- Local Supervision
- Maintenance Performance Monitoring
- Performance Feedback
- Inventory Control of Parts and Materials

Benefits

- Reduced Resource Strain on Administration
- Lower Operating Cost
- Reduced Equipment Downtime
- Increased Efficiency

Test & Inspect Labor: Includes a professional inspection of all components listed in the inventory of equipment (Attachment C). This inspection ensures that the equipment is operating to specifications and identifies any doubtful or broken parts.

Features

- Equipment Inspection
- Identification of Improper Operations
- Professional Assessment and Recommendations

Benefits

- Improved System Reliability
- Reduced Operating Issues
- Minimized Equipment Downtime
- Peace of Mind

Maintenance Supplies: This includes all required maintenance supplies to effectively implement our maintenance program.

Features

- Lubricants for Maintenance Tasks (Bearings, Motors)
- Chemicals
- Cleaning Supplies
- Filter Inspection, Cleaning, Replacement

Benefits

- Minimize Administrative Involvement
- Eliminates Inventory Costs
- Prevents Breakdowns, Failures, and Unexpected Bills
- Extended Equipment Life
- Reduced Energy Consumption
- Provides a Cleaner, Healthier Environment
- Reduced Owning and Operating Costs

Capital Budgeting Assistance: We can assist in prioritizing your building needs by analyzing problem areas and making expert recommendations. Our vast experience in building systems allows us to take a holistic view of your facilities and help you achieve your operational goals.

Quality Assurance Program: Our quality assurance program ensures that the services being provided are at or above the level of services purchased. Danforth strives to exceed your expectations by providing quality, professional mechanical services with ongoing communication.

Features

- Adherence to a Strict Code of Ethics and Standards
- Proactive Feedback
- Procedural Approach
- Ongoing Evaluation and Assessment
- Open Communication

Benefits

- Ensures Customer Satisfaction
- Improves Communication
- Provides Peace of Mind
- Ensures Accountability of Services

Preventative Maintenance Labor: This includes job labor, travel labor, and travel and living expenses required to clean, align, calibrate, tighten, adjust, and lubricate equipment. These activities are intended to extend equipment life and assure proper operating condition and efficiency.

- **Cleaning** – Coil Surfaces, Fan Impellers and Blades, Electrical Contacts,
 - Burner Orifices, Passages and Nozzles, Pilot and Igniter , Condensers, and Boiler Tubes
- **Aligning** – Belt Drives, Drive Couplings, Air Fins
- **Calibrating** – Safety Controls, Temperature and Pressure Controls
- **Tightening** – Electrical Connections, Mounting Bolts, Pipe Clamps, Refrigerant Piping fittings, Damper Sections
- **Adjusting** – Belt Tension, Refrigerant Charge, Super Heat, Fan RPM, Water Chemical Feed and Feed Rate, Burner Fuel/Air Ratios, Gas Pressure, Set Point of Controls and Limits, Compressor Cylinder Unloaders, Damper Close-off
- **Lubricating** – Motors, Fan and Damper Bearings, Valve Stems, Damper Linkages, Fan Vane Linkages

Attachment B

Terms and Conditions

1. Contractor agrees to perform all work professionally and to furnish only materials of good quality.
2. The customer provides reasonable access to all areas and equipment, and allows Contractor to stop and start equipment as necessary to fulfill the terms of the Agreement.
3. All maintenance tasks and non-emergency repair or replacement will be performed during the Contractor's normal working hours.
4. The customer agrees to inform the Contractor immediately of problems found in the operation of the equipment.
5. The Contractor may charge the customer for emergency calls made at the customer's request where no defect is found.
6. The customer agrees to pay and be responsible for any additional gross amount of any present or future sales, use, excise, value-added, or other similar tax, however designated, applicable to the price, sale or delivery or any products, services or the work furnished hereunder or for their use by Contractor on behalf of the customer whether such tax shall be local, state, or federal in nature. **This will include but not be limited to the recovery, recycling, reclamation, handling and disposal of all refrigerants, and the additional costs incurred for refrigerant tax and/or increased costs due to shortages.**
7. The Contractor assumes all equipment covered is in maintainable condition, by accepting the Agreement. For repairs found necessary during the initial inspection or the initial seasonal start-up, a repair proposal is submitted for Customer's approval. If the repair proposal is declined, the non-maintainable items will be eliminated from the maintenance Agreement and the Agreement price adjusted accordingly or the Agreement may be canceled or otherwise revised.
8. Repair or replacement of non-maintainable parts of the system(s) such as, but not limited to, coils, heat exchangers, duct work, piping, shell and tube, unit cabinets, boiler refractory material, insulating material, electrical wiring, hydronic and pneumatic piping, structural supports and other non-moving parts, are not included in this Agreement.
9. If the equipment covered is altered, modified, changed or moved this Agreement may be adjusted accordingly or terminated.

Limitations of Liability and Indemnities

1. The Contractor is not liable for damage or loss caused by delay in installation or interrupted service due to a fire, flood, corrosive substance in the air, strike lockout, dispute with workmen, inability to obtain material or services, commotion, war, act of nature, or any other cause beyond Contractor reasonable control.
2. In no event, whether as a result of breach of contract, or any tort including negligence or otherwise is the Contractor or its suppliers, employees or agents liable for any special, consequential, incidental, or penal damage including, but not limited to loss of profit or revenues, loss of use of any products, machinery, equipment, damage to associated equipment, cost of capital, cost of substitute products, facilities, services or replacement power, down time costs, lost profits, or claims of Buyer's customers for such damages.
3. **No other warranty expressed or other liability is given and no other affirmation of Contractor, by word or action, shall constitute a warranty. This warranty is expressly in lieu of any other express or implied warranty including any implied warranty of merchantability of fitness, and any other obligation on the part of Contractor.**
4. The Contractor's liability, if any, upon any warranty, either expressed or implied, is limited to the replacement of defective materials and correction of faulty workmanship which is in violation of local, state, or federal building codes at the time of performance of the work by the Contractor.

☐ Urgent ☒ For Review ☐ Please Comment ☐ Please Reply ☐ Please Recycle

Dear Jason:

Mollenberg-Betz, Inc. is pleased to submit the following proposal for the above referenced project per the Scope of Work, Pricing, and the following Notes and Exceptions.

Scope of Work

- ▶ Semi-annual HVAC preventive maintenance on equipment as per attached sheet.
- ▶ Filters and belts included in cost.
- ▶ We will provide and fill out a log book to be kept on site. All work will be documented.

Pricing **\$4,480.00**

Note: You will be invoiced \$2,240.00 upon completion of each inspection for Innsbruck

Notes and Exceptions

1. Sales or use taxes are not included in our pricing. If applicable they will be added to the quoted price. If the project is treated as a capital improvement, the quoted price will increase by the cost of the use tax incurred by Mollenberg-Betz.
2. Freight and overtime are not included in the above pricing.
3. The quote is for the scope as described. Any additional parts or materials which may be required beyond this scope would be billed extra. We would discuss any additions with you before proceeding.
4. Due to the volatility of the commodity markets, quotes for steel (all alloys) from our vendors are subject to change daily. Quotes for stock copper tube, steel pipe (all alloys), and plastic pipe are valid for up to three days from date of quotation. Non-stock/special order pipe material shall be valid for 24 hours from date of quotation. All pricing for orders beyond these periods may be subject to review/requote. Thereafter, Mollenberg-Betz may in good faith adjust such prices to reflect increases in the costs or availabilities of such price components.
5. For a period of one year from the date of (equipment start-up), Mollenberg-Betz warrants its work will be free and clear of defects in workmanship. If found, defects will be repaired at no cost to the Customer. Warranty for installed parts and materials installed will be provided by the manufacturer of each specific product provided, which is acknowledged and agreed to by Customer.
