WHEREAS, Permitting will now be under the jurisdiction of a new entity – Office of Renewable Energy Siting (ORES), and

- · Make available to developers "build ready" sites
- · Develop "uniform permitting standards"
- \cdot "coordinate, approve, evaluate, issue, amend, transfer and enforce siting permits"
- ·Limit the ability of local governments to raise objections to proposed projects
- ·Direct local appeals to ORES decisions to litigation through the Article 78 process
- ·Prohibit local governments from requiring any additional approvals or permits

WHEREAS, By filling this action as a 30 day budget amendment, is ignoring and bypassing the legislative process of formulating policy through public input, public hearings and public debate in favor of a rushed and secretive process, and
