Dear Supervisor Keding and Town Board Council Members,

Please accept this letter as my formal resignation as a long standing member of the Town of Boston Board of Assessment Review since 2005, effective June 2, 2020.

It's been a pleasure to serve as a volunteer member on the Board of Assessment Review, bringing my prior experience as a Building and Code Enforcement Officer to assist the BAR.

I wish the Supervisor, Boston Town Board and the Board Assessment Review the very best moving forward.

Sincerely,

RE:

National Grid Gardenville Five Mile 151/152 Culvert Replacement Culvert No. 36 – Boston Colden Road, CR-222 at National Grid ROW LaBella Project No. 2190909.014

Dear Mr. Ferguson:

We have reviewed the Stormwater Pollution Prevention Plan (SWPPP) provided by Fisher Associates for the National Grid Gardenville Five Mile 151/152 Culvert Replacement at National Grid's right of way near the intersection with Boston Colden Road. The SWPPP is dated May 2020 and was provided via email on May 21, 2020. We offer the following for your consideration.

- 1) Include a figure in the SWPPP that demonstrates the decrease in imperviousness indicated in Section 8.2. Show the area of removal and the area of new access road with square footages.
- 2) Provide additional text in Section 8.1 (suggested) which explains further why the hydrology is not changing. We understand that your assessment is that the impervious area is decreasing, the drainage areas are not changing, and the time of concentrations will not change significantly, though there is proposed grading which is different from the existing topography.
- 3) Section 3.2, first paragraph refers to "Tiles in Appendix C". It is unclear what this is referencing. Table 3.2-1 in the same section refers to a "STR #" as 158, and it is unclear what this is referencing.
- 4) Section 3.4 does not adequately describe the work, in that it does not mention grading for the installation of the box culvert where there is currently a stream bank.
- 5) Section 6.0 refers to the qualified inspector as the <u>sole</u> authority of the appropriateness and adequacy of BMPs during construction. While the qualified inspector will conduct weekly inspections on behalf of the Owner, the Town of Boston may also periodically monitor the construction and restoration progress. As a result of MS4 inspection, the Town may have feedback on BMPs.
- 6) Section 6.0 refers to inspection reports being submitted to the on-site supervisor and maintained at the Owner's office. Will there be a mailbox (or similar) located on-site per GP-0-20-001 Part II.D.2?

- 7) Section 7.3 refers to Nationwide Permit #3. As the report indicates that there were no Federal wetlands or waterbodies identified, it is unclear why this is included. It also currently contradicts the response in NOI Question 41.
- 8) The Contractor's Certification Statement included in Section 9.0 does not match the required statement in GP-0-20-001 Part III.A.6. It is noted that the Subcontractor's Certification Statement is the correct language.
- 9) Prior to using the form, it is suggested that the Site Inspection and Maintenance Report Form be updated to reference GP-0-20-001.
- 10) Drawing D-5 references a series of drawings, C-002 to C-011, in at least four places. Those drawings do not appear to be a part of this set.

Please feel free to contact our office with any questions.

Respectfully submitted,
